HIDING IN FEAR.

William Rasmussen Thinks He Has Killed Twenty People. (REGULAR ASSOCIATED PRESS REPORT.) CHICAGO, Oct. 22.—Somewhere in

his city William Rasmussen, a motorman, is hiding in fear, believing him self responsible for the death of a score of innocent trolley-car passen-gers. Last night he ran a crowded Western avenue electric car into a moving Burlington train at the Eight eenth streea crossing. The collision occurred while the street car was mak-ing fifteen miles an hour. Rasmussen, who was an inexperienced motorman, who was an inexperienced motorman, jumped before the crash came and ran. Hearing the noise of the collision he put his hands to his ears to shut out the cries of the wounded and dying, and fied at his utmost speed, eluding all pursuit. Had he remained he would have learned that the twenty passengers escaped injury by tumbling out of the rear door as the car neared the train. They were scattered along the street for two hundred feet. So far as could be learned no one was injured.

Strong Plea Made by the Attorneys of Modesto District.

An Explanation of the Wright Act-and Its Workings—The Cause in Question is a Special Proceeding.

(BY THIEGRAPH TO THE TIMES.)

WASHINGTON, Oct. 22.—(Special Dispatch.) The California irrigation cases have been continued until the first Monday in January. A very strong effort was made to advance the Tregea case on the docket, the attorneys for the Modesto district setting forth in their application the following forcible statement:

"The larger portion of the lands in the San Jooquin Valley and in the southern portion of the State, and large portions of land in the Sacramento Valley and in other valleys of California cannot be successfully and profitably cultivated each year without the aid of artificial irrigation. The Legislature of the State, recognizing the great value and importance of such irrigation, and knowing that private enterprise cannot be relied upon to make a proper and just division and distribution, and knowing that private enterprise to take a trip by wheel to Chicago and return...Jack Dempsey dying at Portland...The contest to oust Jesse Potter...Attorneys engaged to assist the Railroad Commissioners against the Southern Pacific...Public reception to Senators White and Thurston at San Diego.

Carefully-concealed orders have been issued by the Navy Department to rush guns for battleship Oregon—State Department officials contend that the Venezuela and Nicaragua epi-

and to distribute it to the lands of the district.

"As the expenses to be incurred in the construction of the waterworks, such as dams, reservoirs, canals, etc., must be great, the board of directors is authorized to issue the bonds of the district to raise a money with which to defray these penses. The principal and interest of the bonds are payable out of the proceeds of assessments annually levied upon the lands within the district.

"Irrigation districts, about fifty in number, have been organized under the Wright act and most of them have determined to issue bonds to raise the money for the construction of their

Wright act and most of them have determined to issue bonds to raise the money for the construction of their waterworks and have offered their bonds for sale. A small portion of the bonds has been sold at the rate of 90 to 91 per cent. of their par value, but sales have almost ceased.

"It is well known that capitalists hesitate or refuse to invest in bonds issued by a municipality under a new statute until all of the larger part of the questions arising under the law have been adjudicated. The Legislature, realizing the importance and value of an early adjudication of questions that might arise in regard to the validity of the bonds ordered by the districts to be issued, passed an act supplemental to the Wright act known as the Confirmation act.

"That act provides that a special proceeding may be instituted by the district in the proper Superior Court by the filing of a petition averring the organization of the irrigation district, and the several steps taken by the board from the order for the election to be held upon the question of the issue of the bonds on the content of the bonds or the content of the content

"This cause is a special proceeding, instituted under the provisions of the Confirmation act. The Superior Court approved and confirmed all the proceedings, and the judgment was affirmed by the Supreme Court.

"The assignments of error, though numerous and voluminous, present only four Federal questions: First, that plaintiff in error was denied due process of law; second, that he was deprived of

plaintiff in error was denied due proved of flaw; second, that he was deprived of the equal protection of the laws; third, that the judgment is the taking of pri-tact purposes. that the judgment is the taking of private property for private purposes, and, fourth, that the obligation of an alleged contract which was entered into by means of an election held in this district as first organized, resulting in favor of the issue of bonds, was impaired by a subsequent statute authorizing the exclusion of lands from a district.

The last question may not be involved in any of the other irrigation districts of the State, but all the other questions are as fully involved in every other district in which the proceedings have been confirmed, or in which confirmation is sought, as in this cause. The plaintiff in error is the owner of lands in the city of Modesto, which is included within the boundaries of the district, and his contention is that his lands cannot be subjected to assessments to pay the principal or interest of the bonds which may be issued to raise the money with which the waterworks are constructed; that it amounts to the taking of private property for to the taking of private property for

to the taking of private property for private purposes."

The attention of the court was called to the report of the International Irrigation Congress held in Los Angeles. There were present there delegates from the governments of the United States, France, Russia, Mexico, Ecuador, New South Wales, South Africa, British India, Peru and from sixteen States of the United States. The convention unanimously adopted the following resolutions:

"Resolved, that this congress urgently requests the advancement on the calendar of the United States Supreme Court for immediate hearing the case of William Tregea, plaintiff in error, vs. The Modesto Irrigation District, defendant in error, for the following reasons:

"Irrigation bonds have been issued."

commenced, the completion of which will be greatly retarded until the question involved in said cause shall have been determined; the delay in determining which in the regular course of procedure will result in great and irreparable loss and hardship to many and extensive localities affected.

"Resolved, that a certified copy of this resolution be sent to the clerk of the United States Supreme Court with the request that the same be filed among the papers in the case."

They were successful in having it advanced and set for October 21; but, owing to the filing of another case involving the same questions, it was continued. Ex-President Harrison will appear in the Tregea case. He has not visited Washington since his term as President expired.

AN INTERSTATE COMMERCE CASE

WASHINGTON, Oct. 22.—At the instance of the Interstate Commerce
Commission, Solicitor-General Conrad
filed a motion in the United States Supreme Court today for the advancement of the case of Theodore F. Brown,
who is held in custody by the United
States Marshal of the Western Pennsylvania District, on the charge of refusing to answer questions put to him
by the United States grand jury at
Pittsburgh last May concerning the
freight rates of, and the rebates allowed by the Allegheny Valley Railroad, of which he is auidtor. Brown
said such answers would incriminate
himself, and upon a second refusal was
committed for contempt. The adjudication of the case is of great importance, as it involves the enforcement of
the interstate-commerce act, and also
the constitutionality of the act of 1893
providing that the plea of self-incrimination shall be no excuse for a witness
refusing to answer interstate-commerce proceedings.

The Solicitor-General filed with his
motion a letter from Chairman Morrison of the Interstate Commerce Commission, in which he says: "There
are cases pending and others which
should be commenced, the successful
prosecution of which is dependent upon
testimony such as is called for in this
case. An action in these cases is not
practicable or advisable until the question involved in the case above mentioned is decided. Under these circumstances, without such determination,
the enforcement of the penal provisions
of the act will be impracticable and
that branch of the law inoperative for
the most part."

KIRKLAND IS RECALLED.

THE ADMIRAL IN BAD ODOR A WASHINGTON.

ils Congratulation of Faure Latter's Election to the Presi dency of France One of the Causes of His Disgrace.

MEGULAR ASSOCIATED PRESS REPORTA NEW YORK, Oct. 22.—A special dispatch from Washington says the Renadmiral Kirkland's trouble arose from congratulating President Faure of France on his election, which Secretary Herbert thought improper and unneces sary; from making uncomplimentary re-marks about American missionaries in Syria and Armenia; from an alleged in-suit to a naval chaplain at the Kiel festivities and because of charges of general indiscretion in commenting on perand affairs, Admiral Kirkland has sons and affairs. Admiral Kirkland has sailed from Gibraltar for Algiers in his flagship, the San Francisco.

flagship, the San Francisco.

The announcement that Admiral Kirk-land had been detached caused a senland had been detached caused a sensation in naval circles. It is expected that he will apply to be placed on the retired list. For some time it has been rumored that Secretary Herbert was not pleased with the conduct of the Admiral. Secretary Herbert construed Admiral Kirkland's letter of congratulation to President Faure of France as entirely wrong, holding that the official position of the admiral representing the dignity of the United States navy in European waters precluded him from making any comment whatever with reference to French politics, and sent a letter of reprimand. The admiral appealed to the President to overrule Secretary Herbert's strictures on his conduct, claiming that he had known President Faure personally and he had not yet congratulated him in a capacity other than as an individual, not as an officer of the United States navy. The action of the President is not known, but the detachment of the admiral indicates that Mr. Cleveland sustained the Secretary's ruling.

Admiral Kirkland next came into public notice through a newspaper interview in which he made some insulting comments on the character of American missionaries in Syria, whither he had been sent to give them protection sation in naval circles. It is expected

ing comments on the character of American missionaries in Syria, whither he had been sent to give them protection during the Armenian troubles. A protest from religious organizations in Boston was sent to the Navy Department. Following this second cause of dissatisfaction came a complaint from a chaplain in the navy, to the effect that the admiral had insulted him before a number of officers at Kiel, where Admiral Kirkland was in command of the United States fleet.

miral Kirkland was in command of the United States fleet.

It was also alleged by the chaplain that, while standing with Admiral Kirkland and a group of other officers on the quarter-deck of the cruiser San Francisco, the commandant turned to the chaplain and ordered him below in a brusque, if not insulting manner, because he was not attired in full-dress uniform. The chaplain in his letter to the Navy Department made plain that the chaplains have only one regulation

the Navy Department made plain that the chaplains have only one regulation uniform, which served for all occasions, and he therefore believed himself verybadly used. It is said that Secretary Herbert sided with the chaplain in his complaint, but it is not known whether he took official action upon it.

Other reports reached the Navy Department of a more personal nature and, after making a more thorough inquiry and consulting the President, Admiral Kirkland will probably receive the news by cable at Algiers. While the recall is, of course, uncomplimentary to the admiral, there is no disposition at the Department to belittle his record as a sailor. Admiral Kirkland had not long to serve on the active list, but it is believed he will apply for retirement without delay.

Great Britain obtained indemnity from Nicaragua on the ground that her national honor had been outraged by the summary expulsion of her representiative, although the latter was only a humble consular agent. The alleged ex cuse for this is a supposed disagreement between himself and the President in regard to the foreign policy, and especially with reference to the Venezuela

The rumor, however, is entirely unconfirmed, and, owing to the absence of Mr. Olney and President Cleveland, as well as all members of the Cabinet, it is impossible to obtain any definite information which will confirm or disprove it.

MONITOR MONADNOCK.

will be raised in the Monadnock on Wednesday or Thursday, when the vessel will be given a dock trial at Mare Island to test her machinery. The warship will be entirely completed and ready to be put in commission within a month. All that is lacking now are some minor parts of the gun-mounts, which are on the way from the East.

The Monadnock has been building for twenty years and more, her keel having been laid in 1874. The old Monadnock had done good work during the rebellion, and in 1866 she was sent to Valparaiso during the Spanish trouble in Chile. When things quieted down in the latter country the monitor was ordered to the Mare Island Navy-yard, and she came here in convoy of the Vanderbilt.

Admiral John Rogers was in com-SAN FRANCISCO, Oct. 22.—Steam will be raised in the Monadnock on

mand of the convoy, and Admiral Francis M. Bunce, now in charge of the North Atlantic squadron, ploted the Monadnock through the Golden Gate. It was in Secretary Robeson's time that Congress began measures looking to the rehabilitation of the navy. Finding that it was impossible to get appropriations for new ships, Robeson conceived the idea of having the old vessels rebuilt. The expense attached to this came out of the fund for repairs. An order was made to rebuild the Minantonomah, Amphytrite, Terror, Puritan and Monadnock.

The contract to rebuild the Monadnock was let to Secord & Vanderbilt, but the framework was done by a firm in Williamsbury. The monitor was put up in frame-entirely, and then taken apart and the plates shipped to Mare. Island in a sailing vessel around the Horn. For years the plates lay exposed to the weather at the foot of Pennsylvania street in Vallefo, where the keel was laid. The ways are still there, and are known as Monadnock wharf. The appropriations for the "repairs" were very small, and the work was delayed. Several times the plans had to be altered to conform with the modern requirements, and now it is declared that the Monadnock is one of the finest and most efficient warships affoat.

the finest and most efficient warships afloat.

The Monadnock is a double-turreted monitor, and will carry two four-inch guns in each turret. Her secondary battery will consist of Hotchkiss and Gatling guns. She will carry from 180 to 200 men. The big rifles have been at Mare Island for some months, and are housed over with canvas. The trial trip of the monitor will not be made until the vessel has been ordered into commission. When she goes to sea she will have on board all her men and stores. No officer has as yet been assigned to the command of the Monadnock.

The old Monadnock was dismantjed at Monadnock ways. Her turrets were removed, and her timbers have been cut up into relics of former glory.

In accordance with the expressed wish of the Presi-dent and the desire of the exposition of tient and the desire of the exposition of-ficials, the arrival of the party was de-prived of anything in the nature of a hippodrome. Ten thousand people had assembled in the vicinity of the station, crowding the streets as thickly as the crowding the streets as thickly as the space would allow, and overflowing for several blocks in every direction. The roofs, windows, awnings, telegraph poles and every point of vantage in the neighborhood had been utilized by eager on-lookers. The special was stopped outside the depot, however, the party disembarking, and were escorted to carriages by the Reception Committee, and the drive to the Hotel Aragon, their destination, began before the expectant thousands realized that the distinguished visitors had reached the city.

the distinguished visitors had reached the city.

Nevertheless, as the President's carriage, drawn by four white horses, dashed around the zorner of the station, the crowd recognized the portly form of the President, and a mighty cheer went up, which grew and developed into a roar as the line of carriages sped rapidly up Pryor street through the mass of enthusiastic humanity. Mr. Cleveland was in evident good humor, and bowed response to the continuous ovation he received all the way to his hotel. BRECHER'S INSURANCE.

Big Companies Fighting Against Paying \$75,000.

REGULAR ASSOCIATED PRESS REPORT.) CHICAGO, Oct. 22.—A local paper says that several of the largest insurance companies of the United States, including the Mutual of New York, the Hartford, the Germania and the North-western Traveling Men's, are fighting against the payment of \$75,000 of life insurance held by J. Arnold Brecher of Chicago at the time of his death, alleging that Brecher was either poisoned or that he committed suicide. A dis-patch from Milwaukee states that at the instance of the insurance compa-nies the body has been exhumed and the stomach taken to Chicago for chem-ical analysis. The result of this will be made known this week.

At the evening session the Committee on Address presented a very lengthy report, the larger part of which was a review of the politics and religion of the people of Utah from the first settlement of this valley up to the present time. It notes for many years that there was a complete union of church and state and gives an account of the struggle between the Mormon and Liberal parties. All the facts relating to the division of the people on national party lines are detailed. The history of the parties during the past three years, with the relation of the church to the state is brought up to the time of the recent priesthood meeting. While no charge is made against the church itself, an open charge is made that some individuals in the Mormon church are using church inflence to further the cause of the Republican party and that such influence resulted in the election of the Republican party and that such influence in the declare the truth to be:

CHECULAR ASSOCIATED PRESS REPORT.)
CHICAGO, Oct. 22.—The Tribune's
Hot Springs special says:
"I have fought my last fight. I
hereby announce that I have retired
from the ring, and will give the championship belt to the winner of the
Maher-O'Donnell fight."
This unexpected announcement was
made this evening in the rotunda of
the Arlington Hotel by James J. Corbett a short time after induiging in a
stormy interview with Martin Jullian.
The champion had just partaken of a
hearty dinner, and had a cigar in his
hand, and, turning to a friend at his hand, and, turning to a friend at his

hand, and, turning to a friend at his elbow, remarked:

"I have quit training, and here goes my first smoke." So saying he lighted, his cigar and leisurely puffed at it. "I will leave here tomorrow morning with my party for St. Louis. I have lost four months in training and allowing myself to be dragged from point to point. I am satisfied now that this man Fitzsimmons does not want to fight, and will not be here to meet me. If he is anxious to fight why doesn't he come on right now, before there is a law passed in this State to prevent us from meeting. We won't fight, and I don't intend to lose any more time fooling with him."

don't intend to lose any more time fooling with him."

Julian had only to say that on the morning of October 31 Fitzsimmons would be found on the register of the Arlington Hotel; that he would be ready to meet Corbett then and no sooner or later, and that if Corbett was not here he would claim the forfeit, and the championship of the world. An hour later Corbett changed his mind about leaving for St. Louis in the morning, and gave it out he would remain here until after October 31, come what would.

BRADY CUT IT SHORT.

BRADY CUT IT SHORT.

HOT SPRINGS (Ark.,) Oct. 23.—Martin Julian returned from Spring Lake at 12:45 o'clock this morning, nothing having come of the visit. Jack Daiton, on behalf of the Hot Springs Club, made a proposition to Brady, offering a purse of \$10,000 for the contest on November I, conditional on the failure of the Florida Athletic Club to make good its \$41,000 purse on October 31. Julian has accepted. Brady cut proceedings off short by declining to deal with Dalton, but stated that he would see the club members in the morning. Vendig this morning got a telegram from J. J. Quinn, Maher's backer, offering a bet of \$5000 on the Irishman if a match can be made. Julian has till noon to make another application for a purse. BRADY CUT IT SHORT.

HOPING AGAINST HOPE. HOT SPRINGS (Ark.,) Oct. 22.-While the big fight has been declared off there is still a great deal of hope in the native breast that Corbett and Fitzsimmons will come together in the foothills of the Ozark Mountains. The situation is, of course, complicated. So far as its relations with the Florida Athletic Club are concerned, the heavy-weight battle, under the original contract which was subsequently amended at Dallas, is a thing of the past. In its tle here three weeks later than the date originally agreed upon. Corbett,

and letter of the articles, both as to the date and purse, it is known here that Fitzsimmons will come about and agree to a deferment of the hostilities. It is also thought he would submit to a reduction of the purse originally hung up by the club and sign new ar-ticles. He recognizes the fact that on the face of recent developments Cor-bett has shrewdly ensconsed himself in the best of it. To overcome this, he must fight:

must fight.
Julian's proposition now is to bring
his man on to Hot Springs on October
30, put his side bet of \$10,000 up in the hands of Houseman, ask Corbett to do
the same and then allow Houseman to
appoint an hour and place for the men
to meet in private. If this plan falls,
as is likely, for Corbett ineists on fighting in public unless Fitzsimmons increases his side wager to \$20,000, Vendig
and Stuart think a new deal is sure to
ensue. They say that the men must
meet, and that they will come together
here. Just on what lines the conclusion
is reached is not apparent, but the
friends of the club and of the fighters
here are sanguine of a favorable dehands of Houseman, ask Corbett to do

friends of the club and of the fighters here are sanguine of a favorable decision on the appeal to the Supreme Court on Chancellor Leatherman's findings in the habeas corpus.

One thing is settled, unless the men fight in private, on October 31, the fight will be postponed and a subsequent meeting arranged, under the new offer of the club of \$25,000.

NOW FOR MORE JAW. EL PASO, Oct. 22.—A telegram was eccived here last night from the Fitzsimmons people at Corpus Christi saying that Corbett would be invited to

enter into a "pillow-throwing" contest
at Hot Springs, because of the assurance that a fight to a finish could not
be brought off at El Paso.

when the hearing of the Corbett case was called. Arguments were made by Atty.-Gen. Kinsworthy, County Attorney Murphy and Judge Hemingway for the State, and by W. H. Martin for the Florida Club.

The constitutionality of the law of 1891, making prizefighting a felony, was gone over. The question was whether a prizefight is an assault and the sentimental side of the case was argued. Judge Hemingway asked that Corbett be held in arrest until the matter is decided. The court adjourned till tomorrow.

James J. Corbett; he wants to fight for the purse offered by the Florida Athletic Club and a stake of \$10,000. If the Florida Athletic Club is unwilling or unable to carry out its part of the compact, insofar as the purse is concerned, then Robert Flizsimmons will, on October 31, take James J. Corbett to any part of the globe within reach of both men and there and then fight him to a finish for \$10,000 as ide stake, each man to select six men and these only to be present at the fight. I do not sare to mince matters. I simply want to state, and state it strong, that if James J. Corbett and Robert Flizsimmons do not meet and fight on October 31, it will be by reason of no fault of Flizsimmons."

JAKE SCHAEFER'S REPLY.

CHICAGO, October 22,—When Jak Schaefer was informed of Frank Ives' Schaefer was informed of Frank Ives's proposition, he said: "That looks like a bluff to me. He knows well that I have not got a backer that can stand for that amount. There was a time when I could command backing to the extent of \$20,000, but I never asked anybody to play me for that amount. I was always willing to play for from \$500 up, which I consider a fair proposition. I have beaten Ives oftener than he has defeated me, and do not understand why he should offer me odds, or why I should accept apy."
"If he is really anxious for a match or a series of matches, I will play him at 14 or 18 balk-line, cushion caroms and straight rail, for \$500 or \$1000 a side, the winner to take all the gate receipts, the games to be played in New York and Chicago."

3000 people characterized the second day's racing of the Louisville Driving and Fair Association. The event of the day was the free-for-all pace, and it is doubtful if the kings of the pacing world have ever given an exhibition so prolific of excitement as today's, although the time was not fast. Frank Agan lowered his record of 2:06½ to 2:05½, and the performance was a most creditable one, when everything is considered. The track was at its best, but even at that it was probably a second slow. A strong wind was blowing from the north, which made the journey down the entire backstretch bad.

That the wind proved a very considerable obstacle to anything like record time is shown by the fact that in almost every heat the last quarter was the fastest of the mile. Robert J. made a noble struggle for victory, and Geers drove him out in every heat, but Frank Agan, who was not sent out until the third, won the last three heats. the third and fourth without more than a nose to spare from Robert J. Joe Patchen was the only one of the four pacers who failed to take a heat, but he was clearly out of shape, showing some signs of lameness. Agan won all three of the heats without a skip.

CHICAGO, Oct. 22.—The general court-martial for the trial of Lieut.
Samuel Pague, of the Eighth United States Infantry, charged with assaulting Col. R. E. Crofton, of the same regiment, convened today in the assembly hall at Fort Sheridan. The court was called to order by Lieut.-Col. John W. Clous, deputy judge-advocate, who will preside as Judge Advocate of the court throughout the proceedings. The court sat in full-dress uniform.
Capt. C. K. McGunnegle was the first witness. He testified that, on the day the shooting occurred, Lieut. Pague was intoxicated, and while on parade acted in a queer manner. Lieut. W. T. May also testified that Lieut. Pague was intoxicated on that day. The court then adjourned until tomorrow.

HOW THE "THUNDERER" SETTLES IT.

LONDON, Oct. 22.-The Times has LONDON, Oct. 22.—The Times has an editorial this morning on the situation in the far East. It expresses the opinion that Japan might not be reluctant to escape difficulties by placing Korea under a collective guarantee of the powers. "If that were done," says the Times, "a great source of possible danger would be removed. This solution ought not to be beyond the reach of diplomacy."

THE TAL-WON-KUN

NEW YORK, Oct. 22.—A special to the Herald from Seoul says that the Tai-Won-Kun, the King's father, who is wielding the supreme power, is still imprisoning those whom he believes to be his enemies. The King, whose authority is completely overshadowed, is in fear of his life and the representatives here of foreign powers have been asked to unite in affording him pro-tection.

A private message from Tokio announces victories gained in Formosa by the Japanese and stating that the "Black Flage" are expected to surrender at an early date. It was decided at Peking that China shall pay 30,000,000 taels to Japan for the retrocession of the Lalo-Tung promontory. This arrangement has been conducted with the assent of the Jowers.

PROHIBITION CHURCH.

Movement to Establish a National Religion on that Line.
(REGULAR ASSOCIATED PRESS REPORT.)
CHICAGO, Oct. 22.—To form a national prohibition church is the newest move in religious life. The initial meet-ing of those favoring the national or-ganization will be held in the Christian Federation Church. The call for the meeting was sent out by the Rev. J. Wells, pastor of the church, but is signed by over two hundred persons from all parts of the country. Promi-

signed by over two fundary persons from all parts of the country. Prominent among the signers are ex-Gov. John P. St. John of Kansas, Frances E. Willard, A. J. Bassett, who was the Prohibition candidate for Mayor at the last election: J. Simington, chairman of the Chicago Prohibition Club; Rev. E. B. Sutton of Washington, L. J. Johnson of the faculty of Harvard University, and Rev. W. H. Guy of Cleveland.

There are at present six churches in the United States that are founded on strictly prohibition lines. They did not come from the same source, some being offshoots from the Baptist and others sprung from Methodists. The creeds are not all alike, but prohibition is the one sovereign point on which all agree, and brings them together to find strength in unity. These churches are located anywhere from New York to California. In Newburgh, N. Y., is one; in Virginia, in Santa Monica, Cal., in Cleveland, in Paris and in Chicago are others.

THE EPISCOPALIANS.

Closing Day of the Three-Weeks
Session-Pastoral Letter.

MINNEAPOLIS, Oct. 22.—The Epis
copal convention closed a three weeks
session this afternoom with a join
meeting of the two bodies, at which
the pastoral letter of the bishops was
read. The letter discusses at length
the tendencies in the church towari
ritualism, and, on the other hand, to
ward too great liberality, and declares
the wise thing to do is to hold fast to
the old position.

The bishops refer to the successful
deliberations of the convention, to the
progress in the work of revising the
constitution and canons, and to the
need of more systematic and general
contributions for the work of the
church. A paragraph is devoted to
the heroic self-sacrinice of the missionaries in China and to a justificatios
of the church's policy in keeping them
there and sending more to join them in
the work. The fact that four new diocesses and two new missionary jurisdictions have been created, is pointed
to as an evidence of the healthy growth
of the church at home.

In discussing church unity, the bishops are not hopeful of immediate general results save in the spreading of
the sentiment for unity throughout
christendom.

The bishops claim that while the theosogical schools are turning out many
graduates and candidates for orders,
there is lack of self-sacrificing men
willing to spread the faith in foreign
and heathen lands. The progress of
the work among the Afro-Americans
is noted and its needs pointed out. The
woes of the sister churches in Armenia
are sympathized with. The spirit of
unrest in the land is commented upon
upon and the remedy for it is declared
to be accessible in the church.

Unauthorized methods of celebrating
communion and other offices of the
church are severely rebuked, but the
letter makes this significant statement;
"We are indeed between two perilous
tendencies. On the one hand there is a
demand for concessions which will
make it easy for members of Christian
bodies not in communion with the
church to enter her ministry, to tra

Sam Will Do.

(REGULAR ASSOCIATED PRESS REPORT.)

WASHINGTON, Oct. 22.—The interest taken in Spain in the policy and purposes of the United States toward. Cuba is indicated by the arrival here of Senor Tesifonte Galligeo, a special correspondent of El Heraldo de Madrid, one of the leading papers in the Spanish capital, who comes for the purpose of canvassing the sentiment among leading public men here. He sought to secure an interview with President Cleveland and Secretary Olney, but did not succeed, owing to the departure of the former for Atlanta and the engagement of Mr. Olney.

Later Galligeo found Gen. John W. Foster, who was United States Minister in Spain, the negotiator of the last treaty with Spain, and later Secretary of State in Harrison's Cabinet. Foster said he was out of politics, and that he had no information as to the policy of this government, but he said:

"It is my personal opinion that if Spain does not succeed in terminating the insurrection by next spring, when the dry season closes, she will be constroned with the grave danger of losing the island of Cuba altogether. By that time it will be difficult, if not impossible, to prevent the recognition by the United States of the Cubans as belligments, for the American people are being awakened to the fact that Spain proclaimed her recognition of the Southern Confederacy within eight weeks from the dete Fort Sumner was fired on."

Graham, who is a medical student and an intomate friend of Durrant, told of a sensational interview that took place between himself and the prisoner on April 20 at the County Jail. Dr. Graham was accompanied to the prison by J. S. Dunnigan, a newspaper man, who was asked by Durrant to retire after he had been there a few minutes. Graham said that after Dunnigan stepped aside Durrant asked him if he would let him see his notes of Dr. Cheney's lecture in order that he might compare them with his own. Graham demurred at first, after which he said Durrant stated frankly to him that he had no notes of the lecture. He said Durrant told him if he had the notes of the lecture he could easily establish a strong abill for himself, and urged him to leave the notes with Mrs. Durrant, in order that she might bring them to him at the prison. Dr. Graham said he refused the request, and never afterward visited Durrant at the prison.

Dr. Graham's story was not shaken in any particular on cross-examination. While he was testifying the jurors watched Durrant closely, but he gave no sign to indicate that he considered the testimony of any importance. Dr. Graham will be recalled to morrow for further cross-examination. The first witnesses called in rebuttal by the prosecution were the five trustees of Emanuel Church on April 3 by the trustees. The trustees denied that they had asked Durrant to make repairs of any kind at the church during March or April. April 20 at the County Jail. Dr. Gra-ham was accompanied to the prison by

Witnesses were next called to disprove Durrant's statement that, on the afternoon of April 12, he was at the ferry for the purpose of searching for Blanche Lamont, who, he said, a mysterious stranger told had him, would cross the bay that afternoon C. W. Dodge, a medical student, said he saw Durrant at the ferrry, and the prisoner told him he was waiting for a number of members of the Signal Corps, who were expected from Oakland. C. A. Dukes, a medical student who accompanied Dodge, corroborated his testimony.

panied Dodge, corroborated his testimony.

A. A. Hobe, and old schoolmate of Durrant, testified that he saw Durrant at the ferry the same afternoon in company with a young woman who answered the description of Minnie Williams. It is known that Minnie Williams came over from her home in Alameda that afternoon, and the next day herbody was found in Emanuel Church. It is the theory of the prosecution that, instead of being at the ferry to look for Blanche Lamont, Durrant was there for the purpose of meeting Miss Williams and luring her to her death.

E. F. Glaser, a student at the medical college, testified that, on the afternoon of April 10, Durrant asked him to read aloud his notes of Dr. Cheney's lecture. Glaser said he read his notes to Durrant, who devoted three-quarters of an hour to writing in his own note-book. The defense tried to show that it was customary for students to compare notes, but Glaser said that Durrant read nothing that purported to be his own notes.

read nothing own notes.

Thomas Price, a chemist, was called to give testimony on two or three points at issue. He was asked in what condition a man would be who had inhaled the length of time. at issue. He would be who had innated the firm and would be who had innated illuminating gas for the length of time illuminating said he had been working over the discount of the discount of the said said the had been working over the said the sa Durrant said he had been working over the sun-burner. To illustrate the question, which was hypothetical in form, a blackboard drawing made by Durrant himself was used, in which Durrant was shown lying at full length on a plank with his head over a sun-burner comprising twenty-four ordinary gas jets, through which gas was flowing under half force The witness said a man would be unconscious in five minutes—the length of time Durrant said he was engaged at work over the burner.

Prof. Price was also asked about the dark stain on the sole of Rev. Gibson's shoe which was found in the pastor's study at Emanuel Church. The derense made a fight against the question,

grease spot.

An effort was made to have the witness give the result of his examination of the blood-stained boards taken from the stairs and belfry of Emanuel Church, but the court ruled that the boards could not be introduced in re-

buttal.

Charles Morrison and J. P. Cooper, newspaper reporters, told of an interview they had with Durrant in the city prison on the night of his arrest. Both witnesses testified that Durrant said he arrived at the church on April 3, between 4 and 4:30 c'clock in the afternoon. This testimony conflicts with the statement Durrant now makes to the effect that he did not arrive at the church until 5 o'clock. Morrison and Cooper, who were present at the inter-

effect that he did not arrive at the church until 5 o'clock. Morrison and Cooper, who were present at the interview between Reporter Marshall and Detective Gibson, also testified that it was untrue, as alleged by Marshall, that Gibson said he saw the print of a No. 8 or 9 shoe in the beifry near where Blanche Lamont's body was found.

From the present outlook the case will go the jury not later than the close of next week, after having been on trial since July 22. Dist.-Atty. Barnes says all of the rebuttal testimony will be introduced tomorrow and as the defense has no other witnesses, the arguments will begin on Thursday. It is expected that Assistant Dist.-Atty. Peixotto will open for the prosecution and will be followed by Gen. Dickinson or Judge Thompson for the defense. It is now believed that Attorney Deuprey will not again appear in the case, as his physicians give little hope of his speedy recovery. Dist.-Atty. Barnes will make the closing argument for the prosecution and the case will probably be submitted to the jury at the close of next week.

REGULAR ASSOCIATED PRESS REPORT.)
SAN FRANCISCO, Oct. 22.—C. P.
Huntington said that the Central Pacific would not be able to pay its government debt on the maturity of the latter; therefore, if Congress would not

agree to some settlement of the debt on a basis compatible with the financial ability of the Central Pacific to meet the obligation, he had no objection to the United States government taking poasession of the property.

He does not seem at all disturbed at the character of the Washington dispatches of the last few days. He said: "The Central Pacific would not be able to pay its government debt at maturity. I and my associates are willing to pay the last dollar of the debt if we are given time. We want a reduced rate of interest, and an extension of time that shall give us a breathing spell during which we can pay the debt in installments. I will not agreed to do something which is impossible. I will not start out to do something which I already know in advance I cannot do. "We can and will pay the debt if given time. If this request is refused, then I have no objection to the governtaking the road off our hands. Probably some people would be found to whom the government could sell it at their figures. That would be their business, not mine. If the government is bound to be an implacable creditor and take the road with its first-mortgage debt, I will not make any opposition. Bonds to run 100 years at 2 per cent. would be a safe, easy and fair means of letting us settle dollar for dollar with the government."

Gov. Budd Calls Attention to Com mitments to Whittier.
(BEGULAR ASSOCIATED PRESS REPORT.)

SACRAMENTO, Oct. 22.-A special

meeting of the State Board of Examiners was held this afternoon, when the claims of Sheriff Whelan of San Francisco, amounting to about \$2500, were again considered. The Sheriff claimed that he was entitled to that sum for conveying insane persons to asylums, and prisoners to penitentiaries. The examiners contended that his fees were too heavy, and held up the bills for investigation. After an explanation today by J. Fitzgerald, the Sheriff's book-keeper, explaining why it was necessary to charge for three days instead of one for taking an insane person to an asylum, the claim was allowed, less \$200.

Gov. Budd called attention to an inconsistency in the law under which boys are sent to the Reford School at Whittier. Under the law, a grown vagrant is sent to jail for ninety days, and a petty larceny thief for six months. When boys are convicted of similar offenses they are sent to the Reform School to remain until they are of age. as the Adventist Church. The complaint recites that Church took forcible possession of the property on the 3d of October, and has retained possession by threats of violence.

The property in question is one of the finest churches in the interior of the State. It cost about \$40,000, and of this amount the society contributed about \$5000 and Church the balance. Differences have arisen between Church and the society, and several ineffectual attempts have been made to dispose of

the property and effect a settlement. The matter finally culminated by Church taking up his residence in the rear of the building and holding possession up to date. Bolts on the church doors have been broken, and, in some instances, heads are said to have been in danger of similar treatment.

The deputy sheriff who went this evening, to serve the papers in the suit upon Church was unable to gain admission to the building. Whether Church was there is not known.

(REGULAR ASSOCIATED PRESS REPORT.) REQUIAR ASSOCIATED PLESS REPORT.)

SAN FRANCISCO, Oct. 22.—The contest to oust Jesse P. Potter from the executorship of his mother's estate, developed no sensational features today. Potter had the stand all day, and told Attorney Delmas a good many things about his dealings with the great firm of Miller & Lux. Potter was ill, almost to the verge of collapse, but he deftly managed to withstand Delmas's crossfire of questions.

The lawyer wanted to know how it was that Potter first began borrowing money of the firm and the witness explained it satisfactorily. He was Mrs. Charles Lux's only son, he said, and consequently availed himself of many privileges.

"Why did you take money belonging to the firm of Miller & Lux and charge it to yourself?" was asked.

"I was my mother's son. The property was willed to me. I presumed that as her representative in the firm I was entitled to certain privileges. I collected money and it was charged up to me. There never was any misunderstanding about these matters. What I collected of the firm of Miller & Lux was duly charged to me."

"Didn't you hear that Judge Francis E. Spencer of San Jose had intimated you were squandering the money of the firm? Didn't Henry Miller once accuse you of being a thief and embezzler? Didn't he insinuate that he could send you to San Quentin?"

A long wrangle between the contending lawyers ensued. Delmas thought his questions proper. He proposed to develop everything in the inquiry relative to the affairs of the estate. Judge Spencer's evidence personally and the case went over until morning. SAN FRANCISCO, Oct. 22,-The cor

an Invalid Bed He Traveled Hither from the Northern Mountains.

Accompanied by Paithful Wife and Tender Friends He Undertook the Long Trip.

Prevented from Passing His Last Hours in His Own Home He Lingers on a Bed in a Lodging-House.

The special car Paraiso, bearing Lieut.-Gov. Spencer G. Millard home to die, reached the Arcade Depot at 7:30 o'clock yesterday morning. The party, consisting of the dying official, his wife, their two children, Dr. Gundrum of Sacramento, and a colored drum of Sacramento.

party, consisting of the dying official, his wife, their two children, Dr. Gundrum of Sacramento and a colored nurse, were met at the depot by Prof. J. B. Millard, principal of the Springstreet school, who is a cousin of the Lieutenant-Governor; Charles Hall, brother of Mrs. Millard, Mrs. Daniel Innes and several other friends of the Millard family.

The sick man was placed on a mattress in a closed carriage and driven to the Locke House on Hill street, near Second, where apartments had been engaged in lieu of Mr. Millard's own home on Ionia, street, which, unfortunately, was rented several weeks ago to a tenant who refused to vacate for the owner, unless paid \$200 bonus.

Mr. Millard was greatly fatigued by the long journey, but toward evening had somewhat rallied. Yet even the most sanguine of his friends dared not hope that the improvement in his condition was anything but temporary. The word given out at all hours of the day was that the Lieutenant-Governor might live several days, or die within an hour.

NO HOPE FOR THE PATIENT.

NO HOPE FOR THE PATIENT. His form is wasted with disease. He was never robust, and those who saw was never robust, and those who saw him yesterday recognized only a shadow of his former self. Dr. Gundrum, previous to his departure on his return trip to Sacramento, said there was absolutely no hope for the recovery of the patient. His lungs were not so bad as might be, but the tuberculosis with which he was afflicted had reached the bowels. The food taken had ceased to be assimilated, and it was, therefore, impossible to build up the system so as to withstand the ravages of the disease. The only thing to do was to make the patient as comfortable as possible, and opiates were frequently used for this purpose. The colored nurse, a young man named Fletcher, who is in attendance, is very proficient in his calling, and is most devoted in his attentions to the sick man. In the presence of Mrs. Millard yesterday, he bared his arm and said:

"There is an arm that has good, healthy blood in it, and I would spare every drop of it to save the life of Mr. Millard, I worked and voted for him, and I want him to live. If the doctor thinks that blood from my arm would give strength to Mr. Millard, he is welcome to tap it."

Unhappily, the doctor thought even transfusion of blood could not save the patient.

patient.
Dr. T. Davidson, the family physician, took charge of the case as soon as Mr. Millard arrived here, as it was imperative for Dr. Gundrum to return immediately to Sacramento. The sick man recognized Dr. Davidson as soon as he appeared, and seemed to feel better at having such a tried and trusted friend and physician near him.

THE DEVOTED WIFE

THE DEVOTED WIFE. Mrs. Millard has borne up heroically ner attendance on her husband, and

her attendance on her husband, and does everything in her power to cheer his dying moments.

The two little children of the sick man, Spencer and Gertrude, in their childish innocence, played about the halls and grounds of the Locke House yesterday, apparently unconscious of the great bereavement that was overshadowing them. Could the wife and friends of the dying man but share their obliviousness, many a heartache would usness, many a heartache would

During the day there were many call-During the day there were many callers at the hotel to ascertain the patient's condition and to offer their aid and condolence. Among those who called were Congressman McLachlan, Councilman Snyder, City Clerk Luckenbach and many other office-holders, friends and neighbors.

Prof. Millard, the sick man's cousin, and Mr. Hall, Mrs. Millard's brother, have taken up quarters at the Locke, and will remain close by their relative's sickbed till the end.

BUSINESS VS. SENTIMENT.

Mrs. Millard was deeply disappointed

Mrs. Millard was deeply disappointed at not being able to take her husband at not being able to take her husband to his own house, where he desired to spend his closing hours. As the house had been unoccupied for some time, and the family did not expect to return to Los Angeles, it was rented about a month ago to a Mr. Newman for a term of six months. Although Mrs. Millard was willing to remit the rent already paid, and compensate Mr. Newman for the expense of moving, he did not feel that he could afford to give up his lease for less than \$200. The expenses of Mr. Millard, owing to his prolonged illness, have been very heavy, and his income for the same reason is practically nothing. Therefore, Mrs. Millard was obliged to take her husband to other quarters, as she could not afford to pay such a heavy bonus. Mr. Newman, in his refusal to accommodate the stricken family, is moved by business reasons alone. His sympathy for the dying statesman cuts no figure.

There is considerable discussion in religious circles in Chicago over the announcement that the choir of Emanuel Baptist Church has been given notice that after November 10 in the services will be dispensed with. This is isoconquence of the position of the new pastor, Rev. Johnston Meyers, who says that set along the concert stage. He likes oratorio in light in its place, but that it is no part of the mission of the concert stage. He likes oratorio in its place, but in churches he prefers accred songs which change men's hearts and lives. Emanuel church is said to possess the finest quartette in the Western country.

Seven new arrests for smuggling may be expected soon in Newfoundland from clews of another band who are plying their trade in an unexpected direction. The Board of Revenue has instructed its solicitors to suspend the action before the court and to return all documents, depositions, etc., having determined to decide the cases themselves and to fine all those involved, thus escaping a public scandal. The solicitor refuses to do this, and the board threatens to demand his resignation. Meanwhile, every exertion is being made to follow up the confessions that have been made and complete the cases against all those named as having been dealers in smuggled goods.

Imperial Chinese Physician,

Dr. T. Foo Yuen, who is the only graduate of the Imperial Co ellg Medicine at Pekin, China, at present residing in America, has an office at No. 17 Barnard Park, Los Angeles, where he is constantly being consulted by patients who have been abandoned as hopeless by American physicians. He has successfully treated a great many of these cases by his novel, scientific and harmless yet efficacious methods. These methods are based upon a consistent and complete philosophy of medicine, the acquisition of which occupied Dr. Foo for nearly a quarter of a century of constant study and practice.

The fundamental principles of the Chinese system of medicine is to prevent the encroachments of disease whenever possible. If you are beginning to be ill do not delay until your health, and perhaps your life; is endangered, but take at once a preventive course of medicine under Dr. Foo's advice. This may prevent a long and serious illness. If, however; you have been ill for years and have been treated unsuccessfully by your family doctor, there is all the greater reason for your consulting a physician whose simple yet potent remedies have been found of wonderful value in the cure of chronic ailments.

Dr. Foo's diagnosis is entirely by the pulse. His remedies are purely herbal. There is no charge for consultation and opinion. Incurable cases will not be treated. Dr. Foo may be consulted any day between 9 a.m. and 5 p.m. Valuable printed matter explaining the Chinese system of medicine will be sent free to any address upon appli-

hey Caused Several Runaways, as

There was a horserace Monday after-noon which, though not so extensively advertised as the races at Agricultural advertised as the races at Agricultural Park, icreated more excitement. It cost nothing to see it and there was no money wagered on the result, but it was nevertheless one of the most exciting races ever seen in this city, and the end is not yet. The race itself is ended, but there is a little account to be settled with the Police Court, before final judgment on the merits of the race is rendered.

The principals in the contest were Mrs. Jane Anderson, wife of a colored Baptist preacher, residing on Boyle

ars. Jane Anderson, wife of a colored Baptist preacher, residing on Boyle Heights, and Mrs. Jane Douglass, also colored, who lives outside the city limits near Simon Maier's slaughter-house. Mmes: Anderson and Douglass are heavyweights, each of them weighing 250 to 300 pounds. They are good friends and the race was purely a friendly contest.

and the racel was purely a friendly contest.

Mrs. Anderson had driven out to Mrs. Douglass's house in a "wonderful one-hoss shay." Mrs. Douglass hitched her horse to the family carriage, and taking her two children, started to accompany Mrs. Anderson back to the city. Each claimed to have the better horse and bantered the other for a race. Away they went at a terrific pace toward town. Mrs. Douglass is perhaps no heavier than Mrs. Anderson, but she was handicapped by her two pickaninnies, and she had to turn the corners cautiously to avoid spilling them out. For this reason Mrs. Anderson had a little the best of the race.

The course was via First street through Boyle Heights and across the viaduct to Los Angeles street. After stopping to blow their steeds a little while and to transact some business, they started back. The horses were neck and neck as they thundered over the viaduct. narrowly missed being run over in the attempt.

On and on the foaming chargers went, each dusky dame laying on the whip and striving to reach the goal first. On Boyle Heights several teams took fright at the novel racers and ran away. A rancher named Brainard, living east of Boyle Heights, was thrown out of his buggy with such force that his shoulder was broken. More or less other damage resulted from the runaways. Brainard was taken to his home where surgical aid was given him.

The race was run to a finish and each dusky contestant claims she won it. Be that as it may, both were arrested yesterday by Officer Dyke, who swore to a complaint charging them with careless driving. They were taken before Justice Owens, who released them on their own recognizance pending trial.

Mrs. Daniel F. Horgan of Solano street was arrested yesterday on a warrant charging her with disturbing the peace of Mary Sweeney. Mrs. Sweeney alleges that Mrs. Hogan called her a "dirty, rotten from Dogtown." This impolite language has wounded Mary's feelings very much, wherefore she prays the court to have Mrs. Hogan properly punished. Mrs. Hogan, who is a rather pretty woman, was allowed to go on her own recognizance, pending trial of her case, October 29.

OUR GOLDEN FUTURE.

There appears to be no cessation in building activity in Los Angeles, and notwithstanding the immense ber of new houses that have been constructed during the year about closing, there are but few vacant houses in the city, and the demand for houses to rent shows no falling off. This indicates a rapid influx of population, and proves beyond question the continuous growth of Los Angeles.

this constantly-decreasing cost of mancharacter of the homes now in process are modern in architecture, such as are desirable for people of means and culture. We have the assurance that the Los Angeles of the future will be a handsome city, one worthy, architecturally, to be the proud metropolis of Southern California, the section of the State that is growing most rapidly in wealth and population and agricul-tural greatness. In the East one hears more about Los Angeles than any other city in California, not even ex-cepting San Francisco. The charms of our climate and the marvel of our growth and prosperity are like a charmed tale in the ears of those who hear, and the desire to come hither is growing as rapidly as the knowledge of us increases. It is no less valuable to the city than to the individual to have established a good reputation, and that Los Angeles has assured People receive our newspapers and the amount of advertising which greets them as they scan the columns of public indications of the business pulse, is assuring and hopeful. It leads men of business acumen and eve in us, and to un hesitatingly stake their chances on our success. There is none of that timidity of capital which makes men so slow and cautious that they miss their golden opportunities, but capital, while shrewd, is prompt and fear less, believing in the grand future which is before this rapidly-growing city and the large development which is destined to come, not to it alone, but to the whole of this southern section of the State, and ultimately to the State as a whole. Men are beginning to realize that, as far as climate and soil go, and in the beauty of natural environment, we have as rich a heritage as the world can offer and they propose to seize it while they may and hold it for their children and

COMING ATTRACTION.—The announcement that Lady Sholto Douglass will make her appearance with the Frawley company at the Burbank Theater tomerrow evening has caused considerable comment in the city, and there is much curiosity to see the little songstress who made herself famous by marrying a scion of the British aristocracy. Yesterday the box office of the Burbank Theater was besleged throughout the day by persons anxious to reserve seats for tomorrow evening, to witness the first appearance upon the American stage of a member of the nobility, who is a daughter-in-law to a noble peer, sister-in-law to an ex-lady-in-waiting to Queen Victoria, and related to nearly one-half the families who figure in "Burke's Peerage."

About 11 o'clock last night a telephone message was received at the Times editorial room from some point at that time unknown.

"Hello, is that The Times?" was the greeting, and when answered the following conversation ensued:

There was a suspiceous look about this message and no surprise was created by the regapt of another immediately afterward from the same 'phone, which gave away the game of the preceding speaker, who, affer ceasing his conversation, had hurriedly gone away.

A man thin and gray, with furtive eyes glinting behind a pair of spectacles, stopped at the Ramona eigar stand, dropped a nickel in the slot of the telephone and delivered to The Times the message given in detail above. When he had finished he shouldered a valise that must have weighed fifty pounds, and trudged hurriedly away.

ANOTHER DAY'S SPORT AT AG-RICULTURAL PARK.

Second Day of the Sixth Dis-trict Meeting a Success in Every Detail.

Results of the Races-Good Time Made and a Satisfactory Programme Carried Out.

Improvement was the order of the day at Agricultural Park yesterday. Every department of the fair—the exhibits, the races, the crowds, and even the weather—was in point of excellence, ahead of the showing made on Monday, the opening day.

As usual, the main interest centered in the races. Ben Benjamin acted as the starter, his work throughout giving satisfaction. The programme of races, with the entries, was carried out as

DERBY, ONE MILE.

One of the prettiest races of the day was the Los Angeles Derby, one mile, for a purse of \$200. There were only four starters: Juan Bernard, b. c., 3 to 1, owned by Walter Maben; Hello, b. g., 1½ to 1, by C. Weber; La France, ch. f., 2 to 1, Mrs. P. Wolfakill; Capron, 2 to 1, by C. I Thacker. The start was made with Hello at the pole and Capron with Bernard in the rear. La France led at the quarter in 0:25½, but the field was bunched, and it was anybody's race. At the half La France still led, in 0:51½. Near the third quarter post Hello forged ahead, his rider whipping him mercliessiy. Bernard had been in the rear during the entire race, but down the homestretch Cleveland took the pole with Bernard, and, to the disgust of the crowd, fouled La France, taking her position at the pole and winning the race by a half length; time 1:43%. La France second, Hello third, Johnny Capron fourth. A protest against the foul of Bernard's rider was immediately filed with the judges, who gave the race to Bernard, however. DERBY, ONE MILE.

LAST INSTRUCTIONS FROM THE OWNER

The first race of the day was the unfinished trotting race, 2:25 class, purse of \$800. The first two heats of this race were run on Monday, Dag-hestan winning the first, time 2:22; and Neernut the second, time 2:23; and improvement was had in the time of starting the first race, the word "go" being given by Capt. Newton at 1:30

starting the first race, the word "go" being given by Capt. Newton at 1:30 o'clook.

Third heat—The start was a fair one, Neernut taking the pole. A few lengths from the wire Eva T. shot ahead, and at the eighth led the field by a length. El Molino hung close at the heels of the leader, but at the quarter was a rod behind, with Neernut, Silver Bee and Daghestan following in one-two-three order. The half was passed in 1:10%, with no change in the position of the horses. The time at the stretch was 1:45. Eva T. still in the lead and the field following in the same order as at the start. El Molino closed up on Eva T. near the wire, but the little bay hads length to spare, and came under the wire an easy winner; time 2:22%, El Molino second, Neernut third, Silver Bee fourth, Daghestan fifth.

Fourth heat—In this heat Eva T. was placed in the betting at 1 to 3; El Molino 1 to 2; Neernut 3 to 1; Silver Bee 25 to 6; Daghestan 10 to 3. Two attempts at a start were made before the field lined up in anything like proper position, and when Capt. Newton yelled "go," Eva T. was at the pole, leading the field. At the quarter El Molino was at Eva T.'s wheel, and kept the position until almost at the homestretch, when Neernut passed Molino, hanging to Eva T.'s rear like grim death. Daghestan was fourth, and Silver Bee brought up the rear, a dozen lengths behind, going off his feet and being distanced at the finish. Eva T. made a game finish, winning the heat by a length from Neernut; time 2:20%, Neernut second, El Molino third, Silver Bee distanced.

PACING, 2:13 CLASS.

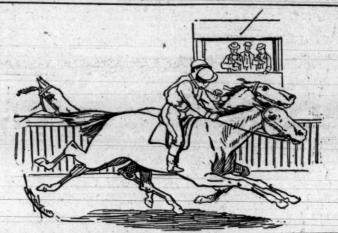

This was to be the star race of the day, there being three entries, for a purse of \$1000. Belle, ch. m., owned by J. H. Davis, 3 to 1; Hanford Medium, br. s., by S. C. Tryon, 1 to 3; and Ketchum, b. s., by W. K. Robinson, 3 to 1. Ketchum was driven past the grandstand for a "try-out" before the first heat, and near the eighth post made a break for his stable, the sulky catching in the fence, wrenching the

second place. Roberto broke at the haff, and did not recover herself for a furlong more. At the three-quarter post Pallta was trotting easily, in 1:49%, a furlong, at least, ahead of Claudius, and came down the stretch in a jog, winning the heat in 2:26%, and with the heat, the race and first money. Claudius second, Don Roberto third.

GENTLEMEN'S ROADRACE. The last event on the card was the The last event on the card was the gentlemen's roadrace for a purse of \$500. There were five entries for this race: George D. Roberts's b. g. George R.; George H. Reed's b. g. Jumbo, Llewellyn Bros.' bl m. Silkey, a son of Silkwood; Lowen Tucker's ch. g. Texas; W. W. Whitney's b. g. Sam H. There were but four starters, however, Jumbo being scratched. Silkey was the favorite in the betting, and was cheered again and again as he was driven past the grandstand by his owner, who doffed his hat in response to the ovation received. Instead of the usual bicycle sulkies, the old-fashioned woodentire arrangements were used in this race:

Roberto third.

Second heat—Palita had the pole at the start, and assumed the lead at the quarter. Claudius was second, though Roberto was pushing him hard for

wheel and very nearly throwing the driver from his seat. Ketchum was put in a new sulky and was again driven past the grandstand; for another trial of his temper. The spectators hissed the big brown stallion roundly, and Maben turned at once and drove to the eighth post again. At almost the same spot, as before, Ketchum broke from Maben's control, heading for the fence, and running over several men of the crowd that watched the stallion's performance. Daghestan, on the outside, went into the air at the eighth post and stayed at the rear during the side, went into the air at the eighth post and stayed at the rear during the entire heat. Eva T. led until the stretch was reached, when Neernut, who had clung closely to Eva T.'s flank, evened up with the leader, and down the stretch the two were together, until, at the drawgate, Eva T., who was a nose ahead, went into the air and did not recover herself before the wire was reached, Neernut winning by a neck; time 2:21. El Molino was scratched in this heat. Neernut took the pole and led to the eighth. ford Medium and Belle the only starters.

First heat—The start of the first heat was the prettiest of the day, the pacers running even under the wire, when the judge gave the word to "go." Hanford Medium took the pole and led at the quarter in 0:34. Before the half was passed Belle was several lengths behind the big brown stallion; time at half 1:08½. No change in the positions occurred at the three-quarter post, but down the stretch Belle made a gallant spurt, closing in on the leader. The mare went off her feet at the drawgate, however, and spoiled her chances of victory. Hanford Medium won the heat by a length; time 2:16½. Second heat—Hanford Medium was a favorite in this heat. He took the pole, and was even with Belle at the quarter, the time being 0:32½. Belle soon broke, however, and failed to recover the ground lost. The half was passed in 1:05½. Hanford kept the lead down the stretch, the finish being similar to that of the first heat. Belle closed in on her rival near the finish, but broke twice at the drawgate, allowing Hanford Medium to win by a dozen lengths; time 2:13½.

Third heat—The third heat was the same old story. Hanford Medium again took the pole, led at the quarter in 0:33½, and at the half in 1:07½. Belle broke before the three-quarter post was reached, and at the stretch was several lengths behind the leader. She made up some of her distance down the stretch, but was beaten at the wire by two lengths, Hanford Medium winning the heat, race and first money; time 2:17 fiat. Belle took second place and second money.

TROTTING, 2:40 CLASS.

There were but three starters in the trotting race for two-year-olds, 2:40 class; with a purse of \$500. Claudius. ers.

Sam H. was second, George R. third. Near the three-quarter post Silkey made a magnificent spurt, passing in turn Sam H. and George R., and running but a length behind Texas, the leader. Down the stretch the son of Silkwood showed that he possessed, in a measure, the qualities of his sire. Inch by inch he crept toward the leader, and at the drawgate was running neck and neck with Texas, beating him under the wire by half a length. It was the best finish of the day, and the grandstand shook with applause for the gamey little black; time 2:30%, Texas second, Sam H. third, George R. fourth. Darkness prevented the remaining heats of the race being run, the judges announcing that the unfinished heats would be the first event on the programme today.

NOTES OF THE FAIR.

The big pavilion in which are clustered the exhibits, exclusive of livestock and agricultural implements, now presents an attractive and pleasing appearance. Every inch of svallable space is utilized, without any perceptible crowding of the booths. Burbank is represented with a good display of fruits and vegetables, raised without irrigation. San Fernando, San Antonio and Ontario have exhibits of much the same character. Local harness manufacturers have creditable exhibits of their goods and the makers of dairy utensils are not behind with samples of their wares.

Only two firms dealing in agricultural implements are represented, both of these being local companies, and in consequence the exhibits of vehicles and farm machines is not as extensive as could be desired. A concern dealing in condensed coffee stracts much attention by its booth, serving coffee free to such visitors as wish to imbibe.

The exhibits on the upper floor of the pavilion are excellent in quality, although not at all extensive. Specimens of pen sketches and paintings, cray-quilts, lace, sofa pillows and table doylles are numerous, one set of this fancy work being made by Mrs. A. M. Sarenson of San Pedro, aged II years, and another by Mrs. E. A. Rice, aged 70 years, of this city. Mrs. A. C. Hudson has a magnificent cray-quilt on exhibition, valued at \$200.

The Protestant Orphan's Home, located at Alpine and Yale streets, has a very interesting exhibit, consisting of children's wearing-apparel and needlework, made by children between the ages of 6 and 12 years. The evening class of the home has a seperate exhibit of needle work. The following special premiums have been offered to the members of this class, if adition to the premiums offered by the association: Coulter Dry Goods Company, carved celluloid toilet set; Luzarus & Melzer, manicure set; Charles Bush, solld silver napkin ring and two gold week-basket; Mrs. J.

eral pairs of pouter, tumbler and homing pigeons.

A. E. Olshansen of Los Angeles has some dainty little buff bantams in his pen and a number of Buff Cochin and Chinas, in addition.

W. P. Mercer exhibits an incubating machine and brooder in operation.

Mrs. J. E. Case has a number of Carolina Leghorns on exhibition. Other specimens of poultry are expected to arrive today.

Skofstad Committed Suicide.

The inquest over the remains of J. B. Skofstad was held at Kregelo & Bresee's undertaking rooms last evening. The verdict of the coroner's jury was that he committed suicide, while laboring under temporary aberration of mind, The family still incline to the murder theory, but it is not known that the young man nad an enemy who would do such a thing. Circumstantial evidence that he committed suicide was strong, and there was absolutely nothing to sustain the murder theory. The funeral will take place at 10 o'clock this morning.

The Santa Fe management has an nounced that within six months new wharf at Ocean Park will be widened to fifty feet and extended to a point 800 feet seaward from mean low tide. This will make a pier susceptible of profitable commercial use, and may be the forerunner of active competition with the Southern Pacific's noth wharf at Port Los Angeles.

Another wave of divorces seems to have struck the courts, and in the last day or two has been seen the pitiful spectacle of two little children each spectacle of two intro-the bone of contention between a divorced father and mother, brought into court on writs of habeas corpus and given to one or the other of the warring parents, to be the innocent subjects of future rows. Truly, this is, in some ways, a degenerate age, and there is something radically wrong with the state of society.

The scheme appears to be a good one to require contractors and others lay-ing cement sidewalks by private contract to make deposits when obtaining permits from the Street Superintend-ent. As the scheme has it these deposits may be returned in each instance certificate of the City Enginee that the walk has been properly laid There is no danger of too much care being exercised in laying cement walks to prevent cracked and crumbled work on the streets of a progres

With the approach of the rainy sea son the number of tramps in the city is increasing. Scarcely a day passes without the hauling up to the police station of half a dozen or more vastation of half a dozen or more va-grants, who have not done anything more to offend the majesty of the law than to sleep in a boxcar or in some unoccupied corner. Among these peo-ple there are always a few who are really willing to work if they have a chance. What Los Angeles should have, without loss of time, is a workyard, where vagrants may have a chance to earn plain board and lodging, and where those who are willing to work may register and find employ-

oped in one of the large sewer districts in the southwestern part of the city. The assessment warrant for the dis-trict has been issued and property-owners are to be called on to pay for the sewer. Now that they have to pay for it, it would seem as if they ought to have an opportunity to use it, but it appears they cannot do so for a num-ber of months to come, because the sewers which will connect this district with the outfall have not been com-pleted. It seems as if there must have been negligence on the part of some one that the lower sewer should not have been completed in time to drain the upper one immediately upon the mpletion of the latter.

MUSICAL MENTION.

The organ concert at Simpson Taber-nacle last evening by Frank H. Colby, organist of the church, drew out a good crowd, and proved a very enjoyable af-fair. Mr. Colby's programme included Gullmant's third sonats, a "Prayer and Cradle" song, and "Grand Choeur" in Guilmant's third sonata, a "Prayer and Cradle" song, and "Grand Choeur" in D by the same composer; gavotte from "Mignon," by Thomas; "Ase's Death" by Grieg, and allegretto by Wely, the "Coronation March" from "Le Profete;" "Fanfare," by Lemmens, and a "Recessional," by M. F. Mason. Each number was artistically rendered. In the sonata and the "Coronation March" especially, Mr. Colby demonstrated the full extent of his command over the keyboards, as well as the pedals. The gavotte was given with charming and dainty finish.

Mr. Harris gave two flute solos, which might have proved enjoyable had the tone produced been smoother and clearer. Mr. Wilflams sang "Under the Lindens," by Dudley Buck, and Larsen's "It Was a Dream," very pleasantly. The Novello Quartette sang "The Water Lily," by Gade, and "Springtime," by Abt, and Mrs. Gertrude-Auld-Thomas sang very sweetly, "Tears," by Massenet, a serenade by Neidlinger.

The wedding of Miss Estellé Haines, daughter of Mr. and Mrs. R. R. Haines, to Henry Thomas Fennel of San Francisco, took place yesterday afternoon at 2:30, at the residence of the bride's parents on West Twenty-seventh street. The ceremony was performed by the Rev. Mr. Wells of Redlands in the presence of only the relatives. The nephew of the bride, little Harold McMillan, who was dressed in white, carried the two rings on a cushion. The bride wore a graceful gown of white peau de sole, with a garniture of pearl passementerie and lace, and carried white chrysanthemums. The wedding march was played by Mrs. Le Grand Betts. The rooms were artistically decorated, under the direction of Mrs. Thomas and Miss Gavitt. The ceremony was performed beneath a canopy of netting filled with white chrysanthemums and smilax. At either side was a mass of papyrus, fastened with white satin ribbon. The mantel was banked with white chrysanthemums, and the same flowers were prettily arranged about both drawingrooms, while the corners were filled with bamboo, potted ferns and palms. In the hall, pink and white carnations and bamboo were used, and the diningroom was in yellow; a tall cut-glass vase, filled with William Allen Richardson roses, occupied the center of the table, and trails of smilax were scattered over the cloth, and yellow chrysanthemums and palms were arranged about the room. A reception was held from 2 to 5, at which the bride was assisted by Mmes. Le Grand Betts, Winslow, Westbrook and the Misses Dunn, Louise Kimball and Austin. Mr. and Mrs. Fennel will reside in San Francisco.

Among the prominent people now visiting Los Angeles is Mrs. Dr. Heler iting Los Angeles is Mrs. Dr. Helen Densmore, who is stopping with her cousin, Mrs. Barnard of Barnard Park, Grand avenue. Dr. Densmore is from London, Eng., and ie a woman of wealth and social position, who has won wide fame by her advocacy of the cause of Mrs. Florence Maybrick. She is famous the world over because of her championship of the unfortunate woman. She has spent largely of her own private fortune to secure aid for the imprisoned woman, in whose innocence she firmly believes. During her stay in Los Angeles it is proposed that she speak before the Friday Morning Club, and those who have the pleasure of listening to her will be most delightfully entertained.

North Ontario.

A telephone message was received by Postoffice Inspector M. H. Flint yester-day morning that the North Ontario office had been entered some time Mon-day night. An entrance was effected day night. An entrance was effected by the removal of a panel from the front door and a large overcoat button, rubbed off by the burglar in squeezzing through the aperture, was found inside the office. Postmaster J. H. Sourwine had fortunately taken all of his office "supplies" of value home with him when he closed up for the hight, and nothing was secured by the thief. Deputy Marshal Poura'de will conduct a search for the owner of the buttons which match the one found, and Inspector Flint will take a hand in the matter.

Breaking into country-town postofices has become quite common recently. The thieves who entered the offices at Summerland and Naples not long ago were convicted. In additional common ago were convicted.

offices at Summerland and Naples not long ago were convicted. In addition burglaries have been committed at Downey, Covina, Ramona and Anaheim. At Covina \$310 worth of "supplies" was secured.

The plan of operation is of a monctonous sameness. The confidence of country postmasters in cheap safes and their disinclination to pack home their stock of stamps and money-order seals has given the thieves, who are supposed to have a regular organization, an opportunity to make small hauls with comparatively little danger to themselves.

The armory board, consisting of offi-cers of Cos. A, C and F, of the Seventh Regiment, N. G. C., is seeking propositions for the construction and renting

sitions for the construction and renting to the State for a term of years of a building suitable for armory purposes. One scheme is to obtain the lease for a building or part of a building for quarters for the officers and men and to have conveniently near a drill shed. Another scheme is to have the quarters and armory toggiher.

The shed, or hall, as the case may be, it is desired should be 120x180 feet. The location must, in order to suit, be central and within easy reach of a street car line. About \$2100 per year is available to pay for rent. All leases must be made subject to the approval of the Goyernor.

The officers who may receive propositions of this sort are Col. W. G. Schreiber and Capts. F. L. Reynolds, James K. Kennedy and F. L. Baldwin.

The license of a saloon reported oper in violation of the ordinance was revoked by the Police Commission yesterday. An appointment was made to fill the vacancy caused by the death of

day. An appointment was made to fill the vacancy caused by the death of Officer Maguire. It was reported to the City Clerk that the contractor for the Westlake Park bendstand had abandoned the job.

Things were running very quietly at the Courthouse yesterday. The Roemer trial was drawing to a close and will be ended today. The interminable suit of Mayberry vs. The Alhambra Addition Water Company was submitted to Judge Van Dyke on briefs. Two longpending divorce cases were decided. The grand jury made an inspection of the County Jail. An embezzler was arrested at Santa Barbara and brought in yesterday evening.

POLICE COMMISSION.

One License Was Revoked Yesterday-The Bicycle Ordinance.

The Police Commission failed to have as spicy developments yesterday morning as it was thought it might have. The meeting was begun at the usual time, and all the members were pres-

The Chief presented a report of Officer Matuszkiewiz on the saloon kept by Phelps & Lowe at No. 162 North Los Angeles street. The report stated that on the morning of October 17, be-tween the hours of midnight and 5 a.m., he and Officer Kolle saw five men in front of the bar, and Mark Phelps. a.m., he and Officer Kolle saw five men in front of the bar, and Mark Phelps was selling beer and whisky to them from behind the bar. At 12:45 o'clock the same morning he and Officer Kolle looked into the place through a window and saw five men standing in front of the bar drinking beer and whisky. Five minutes later they entered through the rear door, which was open. Phelps just then filled the glasses up again, and one man took a 50-cent piece from his pocket and handed it to Phelps, who put it in the till. There were at that time one glass of beer and four glasses of whisky on the bar. Phelps was arrested, and his case was still pending.

On motion the license was revoked. It was reported by Chief Glass in reference to the Fairfield Villa of which certain complaint had been made, that it was expected the objectionable parties would move out within a few days.

Applications of Phillp Slatri for a saloon license at No. 156 North Main street from J. B. Rogers were referred to the Chief for investigation. A protest of J. A. Reld and others against the granting of a license for a saloon in the neighborhood of Mais and Washington streets was filed, it being explained that there was no application before the board for such alconse

being explained that there was no ap-plication before the board for such a

plication before the board for such a license.

A communication from the City Council said that at a recent meeting of that body it had been ordered that the ordinance in reference to the running of bicycles on the public streets be enforced. Chief Glass said that he had given instructions to the officers to enforce the ordinance, but it was difficult to judge accurately of the speed of a bicyclist, and, therefore, it might occur that a wheelman would run fast enough to violate the ordinance, and at the same time an officer would be unable to swear to that effect.

An application of Charles A. Clark for appointment as special officer for service in the employ of the Humane Society was granted.

Applications of C. J. Sawyer and J. B. Loring for appointments on the regular force were filed.

On motion R. S. Haupt was elected to fill the vacancy on the force caused by the death of Officer Maguire.

LESSON IN FINANCES.

An Explanation Made by City Treas-

"A great many people have a wrong impression of what can and cannot be done with the moneys in the city treasury," said City Treasurer Hartwell to a Times reporter yesterday. "When some man with a warrant for money comes into my office and I tell hin there is no money at present in the fund on which the warrant has been drawn he does not understand why it is that his demand cannot be paid out of other moneys in the treasury. For this lance, there is at present in the treasury over \$250,000, yet there is no maney in the funds with which to pay some of the warrants. This \$250,000, it should be understood, however, is money that has been realized on the sale of public school improvement, bonds and can be paid out for no other purpose except for the building and equipment of schoolhouses.

"The situation is the same with other funds. I, as Treasurer, have no authority to transfer any money from one fund to another." is that his demand cannot be paid out

Money paid in as taxes still comes in slowly. Tax Collector Gish deposited a day or two ago \$20,000 thus collected and says he expects to deposit as much more before the end of the week. City Treasurer Hartwell says, however, that a good deal more ought to be on hand in order to put the funds in good condition.

of course a shortage in some of the funds does not mean that the people having demands against those funds will not get their pay. The money will be had after a time, but the delay of property-owners in paying their taxes produces temporary shortages in some of the several funds.

TROUBLE AT WESTLAKE.

Work on the New Bandstand Reported Abandoned.

The City Clerk yesterday received a communication from Aiken & Benton, architects, worded as follows: "Please take notice that the contractor for the contractor of the Westlake Park hand. erection of the Westlake Park band-stand, E. Bowen, has abandoned the work and that the same is in danger of suffering serious damage from ex-posure to the weather in its unfinished condition."

It is understood that the trouble arose from a question as to the practi-cability of putting in a certain kind of thin lumber as required by the con-tract. The contract was let to Mr. Bowen and for the purpose of height-ening the effect of the sound from the stand it was provided that thin lum-

The contract provided that the work should be done for \$79 and of this sum about \$600 has een paid. The millmen, it is said, artered that Mr. Bowen could not construct the form of concave desired out of thin lumber and it is supposed that this fact led to the abandonment of the work as reported.

PRIVATE-CONTRACT WORK.

Scheme to Protect Property-owners Laying Sidewalks.

The City Engineer has it in mind to have presented to the City Council in the near future an ordinance which he believes will serve as a protection to property-owners.

property-owners.

Up to a few months ago when side-walks were laid by private contract a permit in each case would be obtained from the Street Superintendent and that would virtually end the matter as far as the city was concerned. It would remain with the property-owner to see to it that the walk was laid as it should be and that proper material was used.

DRAINAGE COMPLICATIONS.

District Sewer, Although Completed Cannot be Used.

From present indications it looks as if some peculiar complications would follow the completion of the sewers in the district lying between Figueroa and Sentous streets and north of Washing-ton street some time ago furnished by P. M. Darcy as contractor. The assessment warrant and diagram

for this district was issued yesterday, but the drainage from this sewer dis-trict will have to go through the dis-trict, which is under construction by C.

The drainage from the Darcy district will all flow into Washington-street sewer and westerly to Union avenue, from which point it will flow southerly along Union avenue through the sewer being constructed by Mr. Powell. It will, therefore, be seen that the Powell district sewer must be completed bedistrict sewer must be completed be-fore the sewers in the Darcy district can be used. The contract with Mr. Powell calls for the work in his dis-trict to be completed by February 20,

trict to be completed by February 20, 1836.

It has been suggested that the Unionavenue sewer in Mr. Powell's district could be at once completed, and thus permit the use of the sewers in the Darcy district. This, however, cannot be done, for Mr. Powell has left a plece of twenty lineal feet of the sewer in his district that would be prepared for this uncompleted. Mr. Powell has said he would be willing to complete this portion if all the property-owners in his district would sign a waiver of right to protest against the acceptance of the work on this ground.

As it would be practically an impossibility to get the signatures of all the property-owners in the district to such a waiver, there does not appear to be much probability of relief to the people in the Darcy district in that way.

The Roemer Trial Dragging to a Close.

The first arguments in the Roemer trial were made yesterday afternoon, and the case will be given to the jury

Yesterday morning was with the offering of rebuttal testimony, but nothing of importance was devel-oped except the statement of Mrs. Ul-lery that she saw Roemer looking through the window of her husband's

through the window of her husband's barber-shop on the morning of the shooting, thus making it appear that Roemer was seeking Ullery on the morning that he killed him.

In the afternoon Deputy Dist.-Atty. McComas made the first summing up of the case for the prosecution, and James Rives, Esq., opened the arguments on behalf of the defense. The arguments on both sides were shly handled, and the evidence clearly and concisely reviewed from opposite stand-points.

This morning Johnston Jones, Esq., will make the closing argument for the defendant, and the case will be given to the jury by Asst. Dist.-Atty. Williams.

Brother Against Brother.

A suit now on trial before Judge Van Dyke is brought by John A. Stucky, against his brother, L. C. Stucky, for a dissolution of partnership and rendering of accounts. The plaintiff seeks to recover the sum of \$2272, held in trust for him by the defendant. The two brothers purchased a herd of cattle and a pair of horses, the plaintiff putting in the money, and the defendant transacting the business, assuming the entire charge of the cattle, and receiving as his compensation one-half the increase. Disputes have arisen about the alleged diversion of some of the partnership property to the defendant's own use, and the matter has come to such a pass that it can be settled only by order of the court. brothers purchased a herd of cattle and a pair of horses, the plaintiff putting in the money, and the defendant transacting the business, assuming the entire charge of the cattle, and receiving as his compensation one-half the increase. The "Evil Eye" of B. Duncan will now have in its range of baleful vision the full-bench of the State Supreme Court, for that body of jurists has de-Court, for that body of jurists has decided against him in his appeal from a verdict in the Superior Court. When B. Duncan of Kentucky, sah, after a trial in the Superior Court, where the noted seer acted as his own attorney in his libel suit against The Times, and, as his own witness, gravely expatiated to the jury on the saturnine powers of his Evil Eye, was decided against, he capped his humorous antics by preparing appeal papers, the like of which were never before seen on earth. The documents were so funny that they were considered by lawyers as insulting to the court. The habitual litigant objected to paying the costs of the suit objected to paying the costs of the suit which he had brought against The Times for referring to him as an "erratic bloviator" and his appeal duly reached the highest legal tribunal of the State, which disposed of his case in the following opinion, quoted lit-erally:

THE OPINION.

THE OPINION.

In bank, Blanton Duncan, plaintiff and appellant, vs. The Times-Mirror Company, et al., defendants and respondents.

This is a motion to dismiss the appeal on the following grounds:

(1.) That no undertaking on appeal has been filed as required by sec. 940, C. C. P., nor as required by secs. 941 and 954, C. C. P.

(2.) The undertakings do not allude to the appeal from the order denying a new trial; and

(3.) The undertakings purport to be in a different action and not in this case.

and the appeal from the order denying a new trial; and

(3.) The undertakings purport to be in a different action and not in this case.

The undertaking filed is as follows: "Whereas, the plaintiff in the above entitled action, Blanton Duncan vs. The Times-Mirror Company, appeals to the Supreme Court of the State of California from judgment made and entered against plaintiff in said action, in the said Superior Court in favor of the defendant in said action on the day of March, 1895, for one hundred dand eight and five one-hundredths dollars, costs of suit and one hundred dollars, costs of suit and one hundred dollars attorneys' fees.

"Now, therefore, in consideration of the premises and of such appeal we, the undersigned, Mary T. Duncan and F. N. Myers of Los Angeles county, and State of Californis, do hereby jointly and severally undertake and promise, on the part of appellant, that the said appellant will pay all damages and costs which may be awarded against him on the appeal, not exceeding three hundred dollars, to which amount we acknowledge ourselves jointly and severally bound.

"And, whereas, the appellant, Blanton Duncan, is desirous of staying the execution of the defendant so appealed from, we do further in consideration thereof, and, of the premises, jointly and severally undertake and promise, and do acknowledge ourselves further and jointly and severally bound, in the further sum of five hundred and ninety one-hundredths dollars, being double the amount named in the said judgment, that if the said judgment appealed from, or any part thereof be affirmed or the appeal be dismissed, the appellant shall pay the defendant, The Times-Mirror Company, the amount directed to be paid thereby or the part of such amount as to which the appeal and shall be awarded against the appellant upon the appeal and costs which shall be awarded against the appellant upon the appeal and costs which shall be awarded against the appeal in the such amount, together with the interest that may be due thereon, and the damages

of the Legislature to prescribe any reasonable condition to the exercise of the right of appeal.

Appetiant offers, if authority to file an amended undertaking exists, to give an undertaking conforming in every respect to the statute. The motion to dismiss was made upon due notice, and a brief on the part of the moving party was also submitted, to which a reply was made by appellant. In the notice and printed brief the defects in the undertaking were pointed out. Sec. 954, C. C. P. reads as follows:

"If the appellant fails to furnish the requisite papers, the appeal may be dismissed for insufficiency of the undertaking thereon, if good and sufficient undertaking, approved by a Justice of the Supreme Court, be filed in the Supreme

Court before hearing upon motion to dismiss the appeal."

Had there been no statute upon the subject, we might, perhaps, where an undertaking has been filed in due time, and evidently with an honest intent to comply with the law, but which is defective, allow a new undertaking to be filed. But here an opportunity is afforded to an appellant to correct any such mistake. The code expressly provides when the appellant must avail himself of the privilege. He must do so before the hearing of the motion to dismiss. He cannot confess the motion, and then claim the privilege if the motion is decided against him. This express provision is a limitation upon the discretion of the court.

The transcript on appeal in this case contains a certificate to the effect that, "an undertaking on appeal in due form has been properly filed," as required by see, 532, C. C. P. It is contended that this certificate is conclusive; that in case the certificate is untrue the respondent has his remedy, against the clerk, who is liable on his official bond. This proposition has been frequently suggested here on the consideration of similar motions, and, although it has not been discussed in any reported decision, the court has constantly and frequently permitted parties to go behind this certificate. It could not have been intended that the judgment of the clerk should be final in this matter. "For all purposes connected with the appellate jurisdiction the appellate court has the same power over the clerk of the court below as it has over its own clerk." People vs. Center, (54 Cal., 235.) LOWRY'S INDICTMENT.

The indictment of ex-Deputy County Clerk F. E. Lowry for embezzlement was a fruitful topic of conversation yesterday. Mr. Lowry's friends ve-hemently expressed their faith in his in-nocence, and declared that he would set himself right before the public

set himself right before the public when the proper time came.

Mr. Lowry himself had nothing to say, except that he had retained Hon. Henry T. Gage as his counsel, who, for the present, would do all the talking.

Mr. Gage left the city yesterday morning, to be gone perhaps for a week. Mr. Lowry asked that until he returns judgment be suspended in his case. He said he felt grateful to his friends for their sympathy, and assured them that he would explain all to their full satisfaction in due season.

he felt grateful to his friends for their sympathy, and assured them that he would explain all to their full satisfaction in due season.

The charge in the indictment reads: "The said F. E. Lowry, during all the times between the 3d day of January, 1893, and the 3d day of January, 1893, and the 3d day of January, 1893, was the duly-appointed, qualified and acting chief deputy county clerk of the county of Los Angeles; between the 19th day of October, 1894, and the 22d day of November, 1894, as such chief deputy county clerk, charged with the receipt, safe-keeping, transfer and disbursement of public moneys belonging to the said county of Los Angeles, he received into his possession the sum of \$1354.95 lawful money of the United States, then and there belonging to the said county of Los Angeles, and thereafter, between the said 19th day of October and 22d day of December, 1894, in said county of Los Angeles, he freed the said money to his own use and benefit."

The witnesses examined by the grand Jury were T. H. Ward, F. E. Lowry, Mrs. C. B. Fowler and A. W. Seaver.

Many fees are paid to the County Clerk's office, and a record of them is kept in a fee book. Every month this fund is turned into the general salary fund of the county. Incidental expenses of the clerk's office, postage, expressage, etc., are paid out of this fund by the County Clerk, who puts in a claim for it at the end of the month, and it is allowed and put back in the fund again.

for it at the end of the month, and it is allowed and put back in the fund again.

It was in the handling of this fund that the embezzlement is said to have been committed. The time during which it is claimed he obtained the greater part of the \$1364.95 was the months of October and November, 1894, which was during the heated portion of the political campaign, in which Lowry was a candidate for County Clerk.

Ex-County Clerk Ward was informed several days ago that the grand jury experts had found a shortage in the accounts of the office during his second term, and he at once offered to cover the amount so found into the treasury. He did not do so, however, until the indictment against his chief deputy had been returned.

In contradiction of a statement made by an evening paper, Mr. Ward has addressed the following note to The Times;

LOS ANGELES, Oct. 22, 1895.—(To the Editor of The Times;) An article in the Los Angeles Record of this date, headed "A Scapegoat," says, among other things: "He (meaning myself.) says he took Lowry up in the city when he was hungry, and that now he has got himself into trouble, he will have to get himself out." This is untrue. Whatever I have done for Mr. Lowry has been through the closest friendship, and, considering him an honorable and upright man, and I never made the remark imparted to me, above quoted.

What Kind of a Woman to Marry.

question is an all-absorbing and yet an embarrassing one.

There is one fundamental rule which should govern the selection of a wife. A woman ought to be endowed with all the qualities which should make her the companion and helpmeet of her husband. A man of letters is not always happliy mated with a learned woman; he needs an intelligent, appreciative companion—nat one who will weary him with abstruse questions or argue about everything. His weary brain craves rest, not stimulation; in other words, he requires to be amused and not instructed.

On the contrary, a man of ordinary intelligence but little learning is apt to adore a superior woman. The mediocre man is certainly best suited to this style of woman, but he must possess certain manly qualities which counterbalance his lack of culture, otherwise his wife will most likely learn to despise him.

The mission of the wife is to render her home attractive, surround her husband with delicate attentions, help him to bear his burdens, and envelop him in an atmosphere of love and contentment.

EAST, COLORADO-STREET PAVING

uthern Pacific Magnates Visit the Crown City-Pasadena Now Blest with Excellent Transportation Facilities-Personal Mention.

ASADENA, Oct. 22,-(Regular Correspondence.) The matter of paving East Colorado street is still perplexing the residents of that thoroughfare, and at the meeting held by them in the office of the water company Monday evening little was done except to go over the same old items of objection to asphaltum, on the ground of the expense, and to debate the relative merits of asphaltum and a concrete formed of disintegrated granite on a substratum of hard rock. One thing, however, was agreed upon, and that was that before any pavement should be laid the street should be properly graded, and widened at the corner where the Methodist Church now stands. Engineer Clapp, who has been examining the merits of the various forms of paving in the cities of the East, declared that the granite found in this vicinity is so susceptible to the influences of sun and rain that it disintegrates rapidly and crumbles until it becomes almost uniform with it disintegrates rapidly and crumbles until it becomes almost uniform with ordinary soil. He stated that in the East where broken rock is used for a roadway, the hardest obtainable material is utilized, and that all is of uniform quality. This is laid, in various sizes, to a depth of a foot or sixteen inches, but here, where the soil is firm, though porous, no such base is required. It is likely, from the sentiment of the assembled property owners, as expressed at the meeting, that for the present nothing will be done toward improving the street except to grade it until the roadway has a good crown then to moisten and roll it, making a firm, compact driveway. Some property-owners on the street seem to prefer this sort of a road to any other. Messrs. Brockway, Meharry, Spalding and Drs. Greene and Janes were continued at the committee to further investigate and report in two weeks.

The new depot of the Southern Pacific road is now virtually completed, The new depot of the Southern Pacific road is now Virtually completed, the scaffoldings have been removed, and workmen are busy plastering the Interior and putting the finishing touches to the woodwork. C. P. Huntington, Mr. Muir and Mr. Hood came out today in their special car to inspect the building, switches, tracks, sheds and other conveniences recently completed, and they expressed themselves most heartily pleased with the appearance of everything. Indeed, the improvements that have been put in by the road have been commended by all classes of citizens, and all agree that everything has been done in the most handsome and substantial style. It has been definitely concluded by the company to open traffic, both for freight and passengers, and institute the regular service October 30. The passenger service will comprise nine trains daily each way, arranged so as to accommodate those wishing to go in and out in the evening, will be able to do so. The running time between the depot here and Commercial street is twenty minutes, and as a factor in the rapid transit situation the Southern Pacific will no doubt play an imis twenty minutes, and as a factor in the rapid transit situation the Southern Pacific will no doubt play an important part in the community. Pasadena may now be said to have adequate transportation, convenient to all sections of the city, for the electric road, and the three railroads which connect it with Los Angeles furnish trains enough to accommodate all passengers, and freight may also reasonably be expected to be brought here at a much lower rate, owing to the competition, than before.

Justice Merriam wishes it stated that the complaints of Campbell against Biedebach were sworn out on the same day, the first charging the exhibition of a deadly weapon in a rude and angry manner, August 6; the second, for maliclous mischief in killing a pig worth 33, August 7. The trial of the first case was on August 19, and only indirectly brought out the story of the pig. The pig-killing case came second. This statement of the facts, as alleged in the complaint, is cheerfully made, but the statement of the facts, as alleged in the complaint, is cheerfully made, but the criticism, in which reference was made to it, October 14, regarding the trivial nature of many of the complaints where the litigants demand jury trial, stands, and it is an outrage upon the business men of the community that they should so frequently be called upon to leave their proper pursuits to sit on juries upon matters which should be left to or proper pursuits to sit on juries on matters which should be left to e justices of the peace.

Prof. Tyndall, the mind-reader, gave a street exhibition this afternoon, which was witnessed by a large crowd. The Board of Trustees held a business session last evening, all members present except Lewis.

The Finance Committee reported favorably upon bills amounting to 339,55, chief of which were, rent \$150, and water \$94.55. The report was adopted and the bills ordered paid.

The Committee on Ordinances reported to favor of the following changes in names of streets on the South Side: Promenade to South Ocean avenue; Lucas to South Second street; Santa, Monica to South Third: Abbie to South Fourth; California to State: Hill to Highland. The report was referred to the Town Attorney, with instructions to draft the necessary ordinance for the proposed change.

The Town Attorney reported upon his effort to clear buildings off from Railroad avenue, It showed that they were about to be removed, and no further action will be necessary on the part of the board. The engineer was instructed to establish the grade on the avenue from Ocean avenue to the beach, and erect monuments.

A majority of the property-owners petitioned to have Railroad avenue graded from Seventh street to the ocean. The matter was referred to the Street Committee for report at the next meeting.

The attorneys in fact for John P. Jones petitioned for the establishment of the grade of Fourteenth street between Railroad avenue and the town limits (the proposed course of the bitycle road, and the same was granted, and the City Engineer ordered to prepare the profiles.

City Attorney West rendered an opinion in regard to the paving of the street-car line, in which he stated that the board was proceeding legally in the interest of paving, said bonds to be a first lien upon all the track, roadbed, switches and franchises of the street railway line, excepting only the lien for State, county and municipal taxes. If the track were removed from the street the burden of paving, would devolve upon the property-owners on either side. The Board of Trustees has no power to pave that portion of the street required by law to be kept up by the street-car company, and pay for the same out of the public funds. The opinion was accepted and brdered filed, and the board will proceed on the lines already inaugurated of issuing bonds.

HOW THE MATTER IS VIEWED. The majority of our people seem to coincide with the Trustees in their action, and are of the opinion that the bond issue is the most feasible way out of the difficulty. However, the issuance of the bonds cannot compel the operation of the road, over which no cars have, been run since Sunday. Noah Palmer, president of the street railway company, has published the following:

SANTA ANA, Oct. 22, 1895.

To whom it may concern: The Santa Ana, Orange and Tustin Street Railroad company is organized with a capital of 5000 shares at \$10 each, or \$50,000. The company is yet in possession of \$1200 shares of unsold stock. The whole plant is pledged for the payment of \$28,000.

I make this proposition: HOW THE MATTER IS VIEWED.

of \$28,000.

I make this proposition:

If parties who desire the street-car service continued will come forward and buy stock at par value to the extend of the company's indebtedness, I will guarantee the production, without charge therefor, the deficit of stock or 1600 shares.

This will place in the hands of the new stockholders a majority of the stock and give them the organization and the control of the road.

Witness Judge George Puterbaugh in timated that Downey, when in his court, appeared idiotic. Evidently the genial Governor wanted to hug everything in sight, even including his senior counsel, Senator White. The impression made by Downey was that he was drunknot drunk enough to stagger in Judge Puterbaugh's court, but so happly drunk that he "talked through his hat."

Dan Cunningham testified. Dan was Downey's confidential man. One day Dan went to Downey's residence. Some of the women referred to the papers Downey had signed the day before. This was the fatal deed which was signed, then destroyed, and then patched together again, and now causes the present suit, involving the title to Warner's ranch. Downey appeared mortified at the reference to the deed, and said that he was drunk when he signed it. The next day he tore the deed in pieces. Thus does it appear that in a drunken frenzy Downey signed a deed which may make his estate poorer by \$250,000 to \$400,000.

GROSS CARELESSNESS.

The abject stupidity of the men who have power in this county to arrest and imprison people was manifested so openly in the court of Justice Salon Bryan this morning as to cause spirited comment on the gross carelessness of whoever is responsible for the error. A man was arrested and held on bail, charged with overdriving a horse. A jury was summoned. These men, the District Attorney's assistant, witnesses and defendant appeared in court for trial. It was then discovered that, according to the complaint, the offense was committed in the year 189. The prosecution at once said it had no evidence to offer so far back as 189. Defendant's counsel asked for the dismissal of his client. Yet the learned Judge was in a quandary, seemingly, as to what he should do. The representative of the District Attorney delivered a law lecture to the Judge. Still the Judge hesitated. Defendant's counsel saled my was responsible GROSS CARELESSNESS. livered a law lecture to the Judge. Still the Judge hesitated. Defendant's counsel said that somebody was responsible for the detention of his client charged with an offense alleged to have been committed 1706 years ago, and he proposed to hold somebody responsible for false imprisonment if his client were improperly held. After a good deal of "jawing" the Judge quashed the illegal complaint. This proceeding is significant as illustrating the sleepiness of some of the local official legal lights.

The offer is refused unless the city agrees to buy a water supply from the flume company. If the city will buy water from the flume company the \$500,000 will be accepted. The answer adds that if the offer of the Southern California Mountain Water Company to furnish a reservoir and conduit for \$1,075,000 is legal, then the consolidated companies agree to furnish the same kind of a system for \$800,000. This would be a clear saving to the taxpayers of \$275,000. At this moment the settlement of the city water question appears to be rather remote.

J. Arbios left this afternoon with the prisoner, who will remain at the Reform School until he becomes of age. This is young Washington's second experience at Whittier, having been sent there for a short time about a year ago for some petity offense. He had, been out of the reformatory but a short time, when he disappeared with the gold nuggets, and although he was soon captured the hiding place of the treasure was never disclosed. He made pretended cofessions a number of times, but a visit to the place indicated proved that in each instance he did not tell the truth.

WORK SUSPENDED AT RIALTO. The preparations of the Chicago syndicate for raising canalgre at Rialto, before concluding the purchase of the land from the Sayings Union, was generally looked on as an indication that they were ready to purchase by the time their option expired, November 1. The Rialto representative of the syndi-cate received a telegram Saturday night that the work of preparing the land and planting the canalgre had been let by contract. and ordering the work and planting the canaigre had been let by contract, and ordering the work which was being done by men in the employ of the company to stop. At first this was an unpleasant surprise to the Rialto people, but later telegrams brought information that John H. Carruthers, the manager of the company, would leave Chicago yesterday, along with some of the capitalists who are behind the enterprise, and that they would arrive in this city during the week. They telegraphed that as soon as they arrive, all the claims of laborers will be paid at once and in full. The last payday was on October 15, and at that time 50 per cent. of the claims were paid. There have been two pay days since the work at Rialto began, and there is now between \$600 and \$700 due for work.

there is now between \$600 and \$700 due for work.

From the very best sources it was learned this morning that the option of Chicago people on the land of the Semi-Tropic Company does not expire until November 1, and that the coming of the officers of the company now is the signal-for the closing up of the deal, and the outright purchase of the land from the Savings Union. With this view of the case there seems to be no reason to doubt that November 1 will see the transfer of the land, and the commencement of work.

There are doubters who claim that the option expired some time ago, and that the commencement of operations was simply a big bluff, and that the suspension of work last Saturday indicates that they have given up the enterprise.

PREPARATIONS FOR REBUILDING.

PREPARATIONS FOR REBUILDING Mrs. A. M. Goodlet has transferred the property at the northwest corner of Court and D streets to John H. Barton Court and D streets to John H. Barton, and today the lot has been flooded, preparatory to excavating for a building, which Mr. Barton will erect. After the fire, which destroyed the building on that corner early in July, it was though for some time that Mrs. Goodlet, the owner of the property, would rebuild and a few weeks ago the statement was given out for publication that a two story brick block would be built ther at once. But it seems there were finan at once. But it seems there were financial difficulties which could not be me at once. But it seems there were mancial difficulties which could not be met,
and the owner of the property found it
impossible to put up the building. The
property was, therefore, turned over to
Mr. Barton, who held the mortgage,
and the deed was filed for record yesterday evening. The land transferred is
129x62 feet, and the consideration named
in the deed is \$4700. Mr. Barton will
proceed with the work of rebuilding at
once. At present if is his intention to
build but one story high, with foundations and walls which will admit of another story being added when there is
a demand for the property. Propertyowners in the vicinity and others are
trying to induce Mr. Barton to build
two stories, but as yet he has not decided to do so.

WEAR OF GOLD AND SILVER. It
is estimated by a Bank of England expert that small silver coin in use loses
by abrasion 50 per cent. of its weight
in 100 years, and this, of course, is a
total loss. Gold in the same time
loses a little less than 10 per cent.
in the bankers' hands, and between 11

and 13 per cent. in general circulation.
Thus out of \$1,000,000 in silver, nearly
\$500,000 will disappear in the course of
each century, while only \$100,000 to
\$120,000 of gold will be lost from mere
wear and tear.

WOMEN DRUMMERS. Among the many lines of occupation that are being invaded by the women is that of commercial traveler, or "dummer," as it is generally called. The New England Grocer gives the following interesting information in regard to the strides which the new woman is making as a competitor with the "boys" on the road:

"A noted confectioner bases, but the contraction of the contractio

A noted confectioner began business "A noted confectioner began business for women about five years ago. He employed Miss Emma McDonald and Miss Mabel Wyles. He found them far more successful than men had been. The former sold 600 tins of cocca in two weeks in St. Paul, and the latter disposed of seventy-five tins in two days in Buffalo. Their employers claim that the gentler sex know the art of conversation better than men; they can make Eriends easier with the women, and it is on this class the sale of foods depends.

"A large cocos firm believes entirely in the hiring of women for this purpose. They have forty demonstrators—all petticoated—who travel from Oregon to Maryland, wherever there is a fair and a place for a booth. They journey in companies and have excellent times. At fairs and exhibitions they wear Dutch peasant costume, showing off their wares on a portable Dutch cottage. Those who make a success of it are excellently paid; they stop at the best hotels and make a comfortable living.

"This form of commercial pursuit led women very naturally into drumming. It was an easy step. They had met the buyers, knew the towns, had made personal friends and the road was opened out to them.

"Miss R. Zindell was the first woman drummer that went on the road. She traveled for a firm that manufactured shell goods. She has compassed the whole of the United States, and a great part of Europe. Eight months, of the year she still gives to traveling, although she is now a member of the firm. Her sales last year came to \$30,000. She employs women in her office, believing devoutly in the business abilities of her sex.

"Mrs. K. B. Henry, who travels for a corset firm, is a ploneer. For nine years she has made the rounds, and now earns a splendid salary. Two children cried for support, and this was the first position offered her. There was no choice in the matter.

"The Misses Howe have been wonderfully successful. They traveled 3500 miles in one year, and are also demonstrators, wearing a uniform of black dresses, white collars and cuffs, caps and aprous. The younger of these sisters is only a little over 20.

"The grocery trade has more drummers than any other. It is hard to find a capable one, says a manufacturer, but when found they are far better than men. Miss Powler is the best in that line. The Misses Bnodgrass are the pair who are known as the same firm, and Miss Dyer, another Western girl, has scored repeated success in the grocery business.

"Remuneration in some cases is good, going as high as \$5000 a year. That it's an ea

of disappointment among fruit-growers in this section at the course of the dried fruit market up to date. It was expected that by this time prices would have reached a higher level. The present situation is briefly put by the Commercial Bulletin as follows:

"Sales of dried fruits in the southern counties of the State have been very slow this year. Our producers have been disposed to speculate for higher prices, and in the mean time the northern fellows have sold freely, giving Eastern buyers all the fruits they wanted."

GENERAL BUSINESS TOPICS.

CHEAP ELECTRIC POWER. W. are constantly hearing of new enter-prises which promise to develop electric power at remarkably low rates. A tric power at remarkably low rates. A budding genius who writes for the San Francisco Call has run across an enterprise of this character which certainly "takes the cake" as far as cheapness goes. According to this mathematical sharp electric power is to be developed at Yuba Dam which will be considerably cheaper than if it was given away. He says:

He says:

"It now costs an average of \$12 permonth per horse-power, while under the system about to be inaugurated this cost will be reduced at least 100 per cent., and in many instances even more."

more."
Now look out for a big rush of manufacturers to this dam site, where they supply electric power for considerably less than nothing.

BEET SUGAR. The old-time talk about beet sugar not having the sweet-ening power of cane sugar is still heard in England. The Philadelphia Sugar Beet comments on this subject as follows:

in England. The Philadelphia Sugar Beet comments on this subject as follows:

"It is very natural that Great Britain, with colonial interests to protect, should protest against the beet-sugar invasion. It continues to be declared that it has not the sweetening power of cane sugar, yet theory and science are not sufficiently far advanced to prove, if there is a difference, in what it consists. The refining process for the two sugars is not the same, but let a British refiner submit refined (not raw) beet sugar to his own method of refining and then compare the two sugars, we do not hesitate to assert that there is no living expert who could distinguish them. Make a test with lemonade or any sour drink, submit this to twenty persons, and they can give a practical test as to the superior sweetening powers of the two products, one from the northern beet."

THE ATLANTA EXPOSITION. To judge from reports which are received from Atlanta, it looks as if California would take the lead among State ex-

>2

hibits at that place, as it has already in Chicago and San Francisco. Frank Wiggins wrote that California was the only State ready, with the exception of Arkansas, when the gates were thrown open on the 18th of last month. As in the case of the World's Fair and the Midwinter Fair, Southern California takes the lion's share in the State exhibit. It would be impossible to make even an approximate estimate of the number of people and the amount of money brought to this section by the first-class displays which Southern California has made, but the total has undoubtedly been very large, and will be still greater within the next few years. Southern California—particularly Los Angeles—has established a reputation for enterprise and ilberality in making such displays and in advertising its attractions generally through the press and otherwise.

Every dollar spent judiciously in this manner comes back at least tenfold.

Shares and Money

REGULAR ASSOCIATED PRESS REPORT.)

NEW YORK, Oct. 22.—Stocks today were sluggish, and the few changes of note recorded were the result of operations of the room-traders. Only the usual active shares reached the 10,000-share mark. Rumors of disturbances abroad in connection with the African goldmining spaculation, lower prices for American securities in London and sales for that account in this market had a depressing effect upon the opening, and a raily in the foreign exchange market also had unfavorable significance. About the only definite news was of further advances in anthractic coal prices at the East and West, and that fell fiat upon the market. At the outset trading was quiet and Kantasa with but slight changes as a rule tradeas and the tradeas and the state of the second developed weakness under a hings of the country of the second consued, in which slight recoveries were noted, but after the first hour prices again began to age. Toward mid-day, on liberal covering by shorts, a railying tendency prevailed. A reactionary movement again set in around the closing hour. The market closed dull, with slight receasions, generally in leading shares. There was a marked increase in the volume of bond, transactions over yesterday, the sales aggregating \$1,783,000. The movement of prices, however, was as usual of late, extremety erratic.

DENVER (Colo.,) Oct. 22.—"The current quotation on silver means little or nothing," said a well-known ore-buyer today. "The smelters have contracted their bullion for months to come to the big agencies in New York, and these in turn have sold to London. The market will be steady at or near present prices until these contracts are all filled. Then-lit may go higher and it may not." Contracts with the large mines producing silver in Colorado, Utah and other Western districts run with the smelters to the first of the year. Some Possible Cussin' by the New Woman.

LOS ANGELES, Oct. 22—(To the Editor of The Times.) The New Woman is a combination of the gentle and refining influences so long possessed by the feminine sex in general, and the courage, sincerity, truthfulness and practical common sense for which the masculine race has from time immemorial been noted. The feminine attributes the New Woman comes into possession of through inheritance, and consequently in relation to them she has little to learn; but the qualities so long monopolized by the sterner sex she has but recently attempted to acquire, and so ought not to be frowned down if it comes at first a little hard. Feeling a great interest in the ultimate success of her undertaking, and being myself a not unworthy member of a sex that has been masculine uninterruptedly for thousands of years. I am induced to acquaint her with some of the gems of wisdom acquired in this long experience.

It has been indisputably determined LIVERPOOL, Oct. 22.—Spot wheat was firm and the demand fair. It has been indisputably determined that the proper way to alight from a street car is backwards. It is a pleasant and profitable diversion, and perfectly harmless. By harmless, I mean that a careful and thorough investigation reveals the fact that not a single street car has ever been injured in this way in any manner whatsoever. True, the sudden jar with which it is sometimes accompanied is occasionally rather hard upon the payement; but none of the street commissioners have as yet objected to it, and indeed some

times accompanied is occasionally rather hard upon the pavement; but none of the street commissioners have as yet objected to it, and indeed some of them openly favor it, claiming that it actually assists the workmen in their labor of preparing the streets. By profitable, I mean that the New Woman cannot indulge in it without gaining a knowledge that cannot fall to be useful to her in after life—assuming, of course, that her first attempts are not marred by any fatal casualties.

It has long been a tradition among men that women lived in mortal fear of a mouse. In case the New Woman has inherited this superstition along withthe rest, I hasten to assure her that man has suffered only a minimum of annoyance through mice running up his bloomers.

Swearing, is of course, very bad form and all the New Woman'straditions will be against it; nevertheless, if one of her trouser buttons springs off just when she is hurrying out to take her best young man to the theater, she will find that a good, wholesome oath clears the atmosphere and will enable her to see the case in its true light. It is through such simple means at this that man has been able to retain his perpetual good nature and presence of mind.

The New Woman must not be discouraged. She will have to endure many of the trials that man has for so long suffered in silence, but in compensation she will experience many new joys; and when, in the course of events, after an exciting situation, she is led to propose to her adored one, and he replies gently but firmly that he will respect her ever, but can never, never be more than a brother to her, she will understand, at last, the heavenly sense of rellef that steals over a man in similar circumstances. A Story of Chickamauga.

A Story of Chickamauga.

(Cleveland Plain Dealer:) During the last desperate struggle, when Thomas was standing as an insumountable barrier between the Confederate army and Chattanooga, Steedman—always fearless and energetic—was rushing to his assistance. He had not given up the fight, and on reaching Thomas's position observed some brave Union soldiers, exhausted, discouraged by superior numbers of men equally brave, retreating—falling back sullenly, firing as they went. "What does this mean?" shouted the general. An officer replied: "General, we have done all that men can do, even for the flag of their piled: "General, we have done all that men can do, even for the flag of their country." Why, blank it!" roared the general, "you haven't died yet!" As if that were a sentiment they had forgotten, the boys rallied around the old hero and assisted Thomas in fighting to a standstill as magnificent an army as the Confederates ever marched upon a field.

VENTURA COUNTY.

Brass Knuckles in the Air. VENTURA, Oct. 22.—(Regular Co. spondence.) The City Trustees, at their meeting Monday night, boxed the com-pass of reform, and, after a long and wordy debate, during which economy is municipal affairs was argued pro and con, wound up the proceedings by reducing the yearly salary of the City Marshal 4300, which makes the office worth 3900 a year. An effort was made to reduce the salary of the City Cierk from 365 a month to \$20, and to abolish the salary of the City Treasurer and Poundmaster, but both movements failed. As the City Treasurer receives the magnificent stipend of \$20 a month and furnishes a \$15,000 bond for the faithful performance of her (Mrs. McDonald is City Treasurer) duties, it occasioned some little remark when the proposal was made to cut her salary to \$5 a month. The suspicion is abroad that, as the members of the present board are all candidates for re-election in December, reform measures will take up most of their time from now until after election. The main feature of the meeting showed itself when the water-bond fight came up in new form. Trustee Jones, who was one of the warmest supporters of the project to purchase the bonds, up to and including the election, when the taxpayers indorsed the proposition of city ownership by a vote of seven to one, has, since the passage of the bond proposition, worked earnestly to defeat the project. He is an announced candidate for re-election on that issue. At last night's meeting he led the fight, urging that the board resenial its former acts and instruct the City Autorney to draft an ordinance repealing the ordinance of Intention now in force. City Marshal Cook made a long argument against the board taking such action at this time, since the matter can be settled at the polls in less than six weeks without cost to the taxpayers. He pointed out the fact that the board had unanimously indorsed the proposition and first, had hired two sets of special counsel to pass on the validity of the bond proposition and resulted in Jones's motion to rescribe being carried, Jones, Giddings, Sudden and Hund voting anye Collins absent. This action of the Trustees places the coming election fairly before the people as a water company fight—water

Up to October 18 there had been harvested 41,737 tons of beets. The Champion estimates that there are still 20,000 tons in the fields. This will bring the farmers in the neighborhood of \$255,000 for the season's output. In some instances the farmers realized handsome returns for their crops; in others the receipts were very meager. It has been demonstrated that experience counts for as much in beet-raising as in fruit culture, and that soils and seasons must be carefully studied in order that success shall be obtained. One thing is morally certain, however, beet raising would not be profitable if prices were reduced. If this is done, as has been intimated, many farmers will take to raising alfalfa, beans and other crops. The beet farmers have an organization which has for its object the promotion of the general weal and the resistance of any attempt to reduce the price of beets.

The recent agitation in several Southern California cities anent street paving, and the desirability of asphaltum for this purpose, has attracted attention to the Chino asphalt beds. These are easy of access, abundant as to quantity and of superior quality. On Mr. Gird's home place may be seen asphalt paving which has been in use for several years. It has stood the most severe tests. Several sidewalks and street crossings in Ontario are constructed of Chino asphalt. These walks have been in use three or four years and have given excellent satisfaction.

A gentleman of a methodical habit, who had adopted the practice of retaining a copy of every prescription issued by his family physician, became interested as time went on to note that the same physician, became interested as time went on to note that the same ingredients were pretty certain to be prescribed at some point of the treatment of every case. For a poor appetite, or a sore throat, for restlessness which disturbed the baby's sleep, and for troubles which beset the aged grandparents, the favorite remedy was always turning up, although slightly modified from time to time and used often in conjunction with others. One day our friend happened to observe that the formula of a certain advertised remedy was identical with the latest prescription he had received from his own physician, and in some surprise he stated the case to him. The family doctor, after listening to what he had to say, replied: "The case is about this way. Whenever there is a disturbance of the functions of disturbance of the functions of the body, no matter of what nature, it is pretty certain to be accompanied by a derangement of the digestive organs. When they are all right the patient gets well. That particular formula that you-have observed me to write more and more frequently is the result of an age of careful experiment, and is pretty generally agreed upon now by all educated physicians who keep up with the disturbance of the functions of physicians who keep up with the few years of the means of reducing every drug to a powder and compressing the powders into little lozenges or tablets, or little lozenges or tablets, or tabules if you prefer, which will not break or spoil, or lose their good qualities from age if protected from air and light, is the explanation of how it has come about that this prescription is now for sale as an advertised remedy. It is the medicine that nine people out of ten need every time than It is the medicine that nine people out of ten need every time they need any, and I have no doubt that making it so easy to obtain; so carefully prepared, and withat so cheap, will tend to actually prolong the average of human life during the present generation."

SANTA FE WILL BE KNOCKED DOWN IN DECEMBER.

cessor to General Solicitor Thurston of the Union Pacific—Another Overland Road to Shorten Up Time—Traveling by Water.

An Associated Press dispatch from Topeka, Kan., says Judge J. P. John-son, master in chancery of the Santa received information today from Wheeler H. Peckham, solicitor of the Union Trust Company, at present in New York city, that it would be necessary to postpone the sale of the Santa Fe Railway until December 10, as necessary arrangements could not be completed before that date.

SUCCESSOR FOR THURSTON. OMAHA, (Neb.,) Oct. 22.-It is said OMAHA, (Neb.,) Oct. 22.—It is said at Union Pacific headquarters that no successor has been chosen for John M. Thurston, who is expected to resign as general solicitor some time prior to taking his seat as United States Senator. The resignation, it is said, will be handed in about the middle of next month, to take effect December 1. Mr. Thurston talked of resigning im-mediately after his election, but, it is stated, was prevailed upon to continue because of the many and complicated cases pending in the courts against the Union Pacific, and with which he was thoroughly familiar. The appointment of his successor lies with the receivers and with the general counsel, Judge Dillon of New York.

WILL SHORTEN THE TIME.

DENVER (Colo.,) Oct. 22.—A special to the news from Cheyenne, Wyo., says a change of time on the Union Pacific is taked of, to go into effect November 1, which will, with a corresponding change on the Northwestern, lessen the time between Chicago and Ogden eight hours, the Central Pacific schedule being also materially shortened. This time change will beat the Santa Fe fast train to the Coast by two hours. WILL SHORTEN THE TIME.
